No. 130.

Extract from the Minutes of Consultation under date the 19th January 1857.

Read the following Extract from the Proceedings of the Chief Engineer, dated 14th January 1857, No. 9436.

Read the following letter from Lieutenant F. J. MOBERLY, District Engineer Vizagapatam; to Colonel C. E. FABER, Chief Engineer, dated Camp Vizianagrumm, 18th December 1856, No. 903.

SIR,

I have the honor in reply to Extract from your Proceedings No. 8512, to re-submit the 2 estimates for out-buildings to the light keeper's house at Chintapully, and for repairs to the Cash room of the Collector's Department.

2. The estimates were drawn up at the request of the Collector, on inspecting the Light-house in the month of September, I found that the only outbuildings were some sheds which appeared as if they had been erected temporarily when the house was being built, and had been afterwards converted to their present use, they were in a ruinous condition.

3. The Cashkeeper having complained that, the building leaked, and that the floor was much broken up, the Collector requested that an estimate should be prepared. Though not emergently necessary, further neglect will only increase the after expense, and I shall be obliged therefore by an early sanction of the amount.

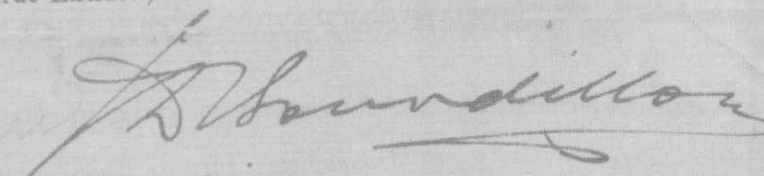

Resolved that a copy of the foregoing letter No. 903, dated 18th December 1856, from the District Engineer Vizagapatam, with the estimate amounting to Rupees (220) two hundred and twenty, for constructing a cook room and Privy to the Chintapully Lighthouse in the District of Vizagapatam be submitted to Government, with the recommendation of the Chief Engineer, that sanction may be granted for the work being executed on Emergency.

Resolved also, that the estimate amounting to Rupees (32) thirty-two for repairing the Cash room (Collector's Department) be returned passed to the District Engineer Vizagapatam for execution.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

Ordered to be referred to the Marine Department.
