Fort Saint George, Marine Consultation, 8th January 1858.

No. 25. MINUTE OF CONSULTATION under date 7th January 1858, No. 13.

Read the following Despatch from the Honorable the Court of Directors, dated 18th November 1857, No. 23.

State that since their letter of the 24th June 1857, No. 14, was dispatched, they have been in communication with Messrs. Saunders and Mitchell, regarding their proposal for erecting an Iron Pile Pier at Madras, and that the change of plan recommended by the Committee would add considerably to the first Estimate submitted by the projectors, the additional Cost being £ 8,616. Observe that there are some points on which the sentiments of the projectors are not quite in accordance with the opinion expressed by the Committee, and think it expedient that this difference should be carefully considered. Desire therefore that the correspondence with Messrs. Saunders and Mitchell on the subject now forwarded, may be laid before the Committee for their final observation and report.

Ordered accordingly that a copy of this Dispatch and the correspondence which accompanied it be forwarded to the Committee appointed to examine Messrs. Saunders and Mitchell's project for erecting an Iron Pile Pier at Madras for their final observation and report, which they will be requested to submit with as little delay as possible.

the Projectors. The additional
cost being £8,000. Observe
that there are some points on
which the sentiments of the Pro-
jectors are not quite in ac-
cordance with the opinion ex-
pressed by the Committee, I think
it expedient that these dif-
ferences should be carefully
considered. Desire therefore
that the correspondence with
Messrs. Saunders & Mitchell on
the subject now forwarded,
may be laid before the Com-
mittee for their final obser-
vation and report.

Ordered according
by that a copy of the
Despatch and the cor-
respondence which ac-
companied it be for-
warded to the Commit-
tee appointed to examine
Messrs. Saunders and Mit-
chell's project for erect-
ing an Iron Pile Pier
at Madras for their fi-
nal observation and re-
port, which they will
be requested to sub-
mit with as little de-
lay

delay as possible.
