1. The Government re-
solve, under the opinion ex-
pressed in para 7 of the Marine
Board's letter of the 16th April
1858 to refer the proposal for
prolonging the Head Land, south of
of the Calingapatam Anchor-
age to the Public Works De-
partment, with a request that
a Plan and Estimate may be
prepared for the extension of
the Point referred to.

2. With regard to the further
matters

matter treated of in the Board's letter it is observed that the establishments submitted in the Board's letter of 25th August 1857 have not been recommended to the Government of India. By the recent Act VII of 1858 no port dues are levied at any of the ports in the Ganjam District, and there are therefore no sources whence these additional establishments could be paid. All these ports are however included in the Schedule to the Draft "Bill for the regulation of certain Ports within the Presidency of Fort St. George", which it is expected will be passed shortly and which provides for the more important measures of conservation, ^{regulating} as to the throwing over of ballast &c. being carried out by the Magistrate and

and ^{by him} Chief Officer of Customs. It is remarked that by a late Order in the Revenue Dept. of 7th April No. 441 the Government have expressed their readiness to consider any plan that may be devised by the Board of Revenue for the more efficient management of the Sea Customs in Ganjam, and the Board will now be desired thro' the Revenue Department to submit such a plan at an early date.

3. The Marine Board will be pleased to furnish the Collector of Ganjam with a set of signal flags and (if not yet supplied) a code of Marryatt's signals for the port of Munsoorcottah. The Government have reason to know that the Collector will find means to work them even with his present establishments.

in Council has recently
authorized the immediate
construction of a Flagstaff
at that port as well as at
Yanguan and Calingapatam.
4. The fort does not con-
-cur with the Marine
Ad. in their views in
respect to the proposal
for laying down new
moorings at Man-

moorings, however,
would be very
useful & are much
required at that
port. The project will
therefore be referred
