Fort Saint George, Marine Consultation, 23th September 1858.

No. 16. From J. J. FRANKLIN, Esq., Superintendent of Marine; to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated 13th September 1858, No. 3702.

SIR,

I have the honor to represent, for the information of the Right Honorable the Governor in Council, that much inconvenience has for some time been felt from the Government Steamers being unable to anchor off the Custom House in a berth convenient for coaling in consequence of the crowded state of the Roadstead. To obviate this, and likewise as a greater measure of security to such Vessels while at anchor, I beg to propose that four sets of Moorings be laid down off the Custom House for Government purposes. When not required for Steamers they might be used for transport or other Vessels engaged partly for the public service.

2. Before, however, furnishing details as to the size and description of the Moorings, I would solicit that application be made to the Government of Bombay with the view to my being furnished with full information from the Marine Department of that Presidency relative to the Moorings in use in the harbour of Bombay. With data regarding the size, weight and scope of the Moorings in use there for Vessels of certain tonnage, I could better judge of the requirements here.

No. 17 To THE SECRETARY TO THE GOVERNMENT OF BOMBAY, dated Fort Saint George, 25th September 1858, No. 384.

SIR,

I am directed by the Governor in Council to request that, with the permission of the Government of Bombay, this Government may be furnished with full information relative to the Moorings in use in the Harbour of Bombay, their size, weight and scope for Vessels of different Tonnage.

(Signed) T. PYCROFT,
Chief Secretary.
