SIR,

With reference to your letter of the 4th Instant, I have the honor to inform you under the orders of the Honorable the Governor in Council that the Chief Engineer has been directed to forward to the Bombay Government 100 copies of each of the five Charts of the Western Coast prepared by Lieutenant Taylor, and they, it has been ascertained, were recently despatched by Dawk.

Memo.

In E. M. C. 7. Decr. 58. N^o. 2640 S. W. D. the specimen set of Lt. Taylor's Charts, together with the Chief Engineer's letter reporting their completion & proposing the mode of distribution - was ordered to be transferred to the Marine Dept. Copy of this order was communicated to the Chief Engineer, who was in possession of the whole output of Charts. On receipt of this order, the Chief Engineer's office appear to have proceeded with some sort of distribution. They have still with them the following quantity - See Memo. attached.

The order in the Marine Dept. for the distribution of the Maps was communicated to the Pub. & Co. Dept. where it was recorded instead of being sent on the Chief Engineer. Subsequently, however, it was in a separate order communicated to the Chief Engineer.

It does not clearly appear from enquiries made what has become of the distribution has been made. An official Memo. will procure the necessary information.

The draft order on the application of the Bombay Govt. was made under the impression that that Govt. requires the 20 copies in addition to those already forwarded to them.

Memo:

Chart of the Coast of Tanara - 112 Copies
Chart of the Coast of Western India - 68 Copies
Chart of Bays of River entrance 99 Copies
Chart of Tuddur River entrance - 111 Copies
Chart of Soniga or Cocanada Bay 363 Copies
Chart of Cochin Bar - 166 Copies
