*Proceedings of the Madras Government, Marine Department,
15th June 1860.*

No. 33. Read the following letter from J. J. FRANKLIN, Esq., Superintendent of Marine, to the Chief Secretary to Government, Fort Saint George, dated 9th June 1860, No. 2,808.

Rupees 15,606-13-6.

Vide Proceedings of Government, 4th January 1860, No. 6.

I have the honor to inform you that the accompanying bill for the balance due on account of the first cargo of patent fuel delivered under Messrs. John Chapman and Co.'s contract with the Council of India, has been presented and that it is in all respects correct.

2. The time of receipt, however, is much later than the contract provides for, the whole quantity 2,000 tons being therein stipulated to be delivered into store in equal proportions during the months of March and April. Yet it is not likely the Home Authorities intend this infraction to be noticed, as although one thousand tons were by the contract to have left England in all October and this the first vessel, only left on the 25th November, the papers were sent out without remark.

3. Under these circumstances, I would solicit authority for passing this bill and others of a like nature on the understanding that any wilful infraction should immediately be submitted for the consideration of Government.

No. 34. ORDER THEREON, 15th June 1860, No. 221.

Government authorize the Superintendent of Marine to admit the bill submitted with this letter. They likewise grant authority generally for the admission of other claims for coal delivered under similar circumstances. The Superintendent of Marine will, however, as remarked by him, bring to early notice all wilful or serious infractions of contracts, for the orders of this Government, and for report to the Home Authorities.

(Signed) T. PYCROFT,
Chief Secretary.

*authority for passing this bill and others of a like
nature on the understanding that any wilful
infraction should immediately be submitted
for the consideration of Government.
