*Proceedings of the Madras Government, Marine Department,
22nd June 1860.*

No. 39. Read the following letter from Lieutenant Colonel W. H. HORSLEY, Chief Engineer, to the Secretary to Government, Public Works Department, dated 11th June 1860, No. 1,468.

Enclosures.

- 1 Letter from Civil Architect, No. 289, dated 27th March 1860, with 1 enclosure.
1 Letter from do. No. 458, dated 17th May 1860.
1 Abstract Estimate.

I have the honor to forward herewith for submission to Government an Estimate amounting to Rupees (3,000) three thousand, received from the Civil Architect, for effecting certain repairs and trifling improvements to the Marine Store Yard, and Tannah, attached to the Master Attendant's Office on the beach.

No. 289. 2. On the 27th March last the Civil Architect sent in to this Office Estimates amounting to Rupees 4,880 for repairing the Master Attendant's Office, and the Marine Store Yard, Tannah, and Coal godowns attached thereto, agreeably to the requisition of the Barrack Master, as contained in his Memo: of the 16th January 1860, and in doing so, he reported that as the palmirah reapers and a few of the rafters of the roof in the Marine yard were completely decayed, and the tiles all displaced, it was proposed to renew the roof entirely with teak wood reapers, the gate piers and shutters also being dilapidated and decayed were to be renewed, and the walls and floors to be repaired where required; and that in respect to the Tannah in the yard, it was proposed to build a thin partition wall around, to secure it from the wind and dust, and to supply and fix 2 doors and 5 small windows to the building in lieu of the present common bamboo mats.

3. Of the Estimates received from the Civil Architect, those for repairing the Master Attendant's Office and the three Coal godowns, amounting to Rupees 1,880, were sanctioned by this Office on the 12th May 1860; but as the other Estimates, amounting respectively to Rupees 2,850 and 150, for the works detailed in the preceding paragraph, exceeded one-fourth the value of the buildings, Captain Hitchins was, on the above date, called upon for a detailed report as to the necessity for such extensive repairs as proposed by him, in lieu of the general repairs recommended by the Barrack Master.

4. In reply Captain Hitchins states that on a careful examination of the roof it is found that to replace the palmirah with teakwood reapers, it is necessary to remove all the flat and pan tiles with which the roof, measuring 14,650 superficial feet, is covered, and that he calculates on only one-half of the former and two-thirds of the latter kind of materials being found fit for use in the repair of the roof, so that an outlay of 1,500 Rupees, or one-half of the total Estimate, will have to be incurred on this portion of the work alone.

5. The Estimate now submitted has been examined in this Office, and under the above explanation, I have to request the sanction of Government for the execution of the same, amounting to Rupees (3,000,) three thousand, from the repair funds at the disposal of the Civil Architect.

Transferred to the Public Department.

(Signed) C. G. MASTER,
Deputy Secretary to Government.

13th June 1860.

ORDER THEREON, 22nd June 1860, No. 224.

No. 40.

The Government sanction the Estimate for (3,000) three thousand Rupees for improving and repairing the Marine Store Yard and the Tannah Station adjoining the Yard. This expense will be defrayed from the repair funds at the disposal of the Civil Architect, and will be charged proportionately to the Marine and Police Departments.

Marine Store Yard.....	2,850
Tannah Station.....	150
