*Proceedings of the Madras Government, Marine Department,
24th August 1860.*

No. 43. Read the following letter from Commander F. W. HOPKINS, I. N., Commanding Her Majesty's Steamer "Dalhousie," I. N., to T. PYCROFT, Esq., Chief Secretary to Government, Madras, dated 23rd August 1860, No. 386.

I regret having to report that Mr. H. Hannaford, 3rd class Engineer of this vessel, was obliged to go to the European General Hospital here for medical treatment, and prior to the vessel going any long trip such as to Rangoon it is necessary that I should have another, and I therefore request that one may be lent temporarily from the shore; my Chief Engineer has the fever frequently and I have only two others on board; if the temporary services of an Engineer who is a boiler-maker as well, (or iron Ship builder) can be obtained, it will prove very useful from the nature of the work to be done to the vessel.

No. 44. ORDER THEREON, 24th August 1860, No. 298.

Resolved that the Chief Engineer be requested, if possible, to supply an Engineer to the Steamer "Dalhousie" to act for the Engineer reported sick.

(Signed) T. PYCROFT,
Chief Secretary.

My dear Mr. Gerrit ^{NY}

I would suggest that
you send a copy of
this to the Chief Engineer
who would in all pro-
bability be able to
supply Capt Hopkins' wants.

A good engine driver
with a knowledge of boiler
making would do well.

Yours very truly
Wm. H. H. H.

Nº 298 - 24 August 1860.

Resolved that the Chief
Engineer be ^{if possible} requested to
~~provide~~ ^{supply} an Engineer
to the Str. "Dalhousie"
to act for the Engineer
reported sick.

JP

- The Chief Engineer.
- " Supt. of Marine.
- " Commander of the
Str. "Dalhousie". I. N.

Despatch 24/8/60
