I have the honor to request permission for the expenditure of (250) two hundred and
fifty Rupees for the purchase of four large treble blocks with wire rope strops, very much
required in the Department for lifting heavy boilers and machinery. None of a proper description
are to be found in any of the public Stores, and when such appliances are needed recourse is had
to the Railway Officers, who might not always be able to lend them, however willing they might
be to oblige.

expressly for hoisting out heavy boilers at Colombo, and the Commander of the vessel to whom
they belong asserts (250) two hundred and fifty Rupees to be their cost price with the addition of
5 per cent.
