*Proceedings of the Madras Government, Marine Department,
28th December 1861.*

No. 79. Read the following letter from J. J. FRANKLIN, Esq., Superintendent of Marine; to T. PYCROFT, Esq., Chief Secretary to Government, Marine Department, Fort Saint George, dated 21st December 1861, No. 3,538.

I have the honor to inform you that, with a view to enable me to reply to the reference contained in the Proceedings of Government of the 6th instant, No. 409, I applied to the Quarter Master General of the Army for a statement of the number of details and followers, sick, and in health, that would probably require passage between Madras and Burmah in a given time, now that the force in that Settlement has been so considerably reduced.

2. In reply, this Officer states that he is unable to furnish me with the information I require, until the Government have decided on the question of allowing the families of Sepoys to proceed with them on foreign service. It is impossible therefore for me to say what will be the best means of keeping up the communication between the two countries at present. I have consequently, in accordance with the instructions contained in the 2nd paragraph of the Proceedings above quoted, ascertained from Mr. Mackinnon, the Managing Director of the Company to which the "Coringa" belongs, that there will be no objection to the continuance of the Mail contract from month to month till the question of its renewal be finally settled.

No. 80. ORDER THEREON, 28th December 1861, No. 441.

The Government authorize the Superintendent of Marine to carry on, after the expiration of the present Rangoon Mail Contract, the usual Steam communication with that port from month to month.

2. In the Budget for 1861-62, provision for payment of the subsidy was originally made to the extent of Rupees 45,000. One-third of the subsidy having been made a postal charge, the credit in the Marine Budget is reduced by transfer to Rupees 30,000. The Superintendent of Marine will report as early as possible, after communication with the Accountant General, how much of that sum has been expended in payment for trips already made in 1861-62, and how much more must be provided to meet the expense of the trips which will have to be made, supposing the Steam communication to be continued to the end of the year 1861-62, and will have to be entered in the Supplemental Budget of that year. This provision will extend only to two-thirds of the monthly subsidies; the remaining one-third will have to be provided in the Postal Department and should be included by the Post Master General in his Supplemental Budget, or be separately applied for by him.

3. But besides the subsidy, the Government guarantee, for each trip, freight and passage money to the amount of at least Rupees 3,000, debitable of course to the departments for whom the passage and freight may be provided. Mr. Franklin will report whether the entire amount of freight and passage is likely to be taken up for the remaining trips of the year, and if not, how much less may be expected to be taken up, and for this difference, if any, provision will also have to be made in his Supplemental Budget.

4. The Superintendent of Marine will urge on the Quarter Master General the necessity of furnishing at an early date the information referred to in paragraph 2 of his letter.

(Signed) T. PYCROFT,
Chief Secretary.

Exd. T. O'Connor.

I have the honor to inform you that,
with a view to enable me to reply to the reference con-

N. 109, I applied to the Quarter Master General of the
Army for a statement of the number of ^{S. B.} details and
followers, sick, and in health, that would probably re-

In reply this officer states that he is
unable to furnish me with the information I require, un-
-til the Government have decided on the question of al-

what

what will be the best means of keeping up the communication between the two Countries at present. I have, consequently, in accordance with the instructions contained in the 2^d para of the Proceedings above quoted, ascertained from Mr. Macpherson, the Managing Director of the Companies to which the "Coringa" belongs, that there will be no objection to the continuance of the Mail Contract from month to month till the question of its renewal be finally settled.

The Government authorise the Superintendent of Marine to carry on, after the expiration of the ^{present} Rangoon Mail Contract, the usual Steam communication with that port from month to month.

2. In the Budget for 1861-62, provision for payments of the Subsidy was originally made to the extent of Rupees 45,000. One third of the subsidy having been made

made as Postage charge, the

which will have to be
made, supposing the Steam
communication to be
continued to the end of the
year 1861/62 and will have
to be entered in the Supple-
mentary Budget of that year.
This provision will extend
only to $\frac{2}{3}$ of the monthly
Subsidies, the remaining
 $\frac{1}{3}$

$\frac{1}{3}$ will have to be provided
in the Postal Department
and should be included by
the Post Master General in his
Supplementary budget, or be
separated off of it.
3 But besides the
Subsidy, the Government
guarantee, for each trip, freight
and passage money to the
amount of at least Rupees

taken up for the remaining
trips of the year and if not,
how much less may be
expected to be taken up,
and for this difference, if
any provision will also
have

have to be made in his
