*Proceedings of the Madras Government, Marine Department,
13th March 1862.*

Read the following papers :—

No. 36. From Lieutenant Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, N. C. ; to Lieutenant Colonel W. H. HORSLEY, Secretary to Government, D. P. W., dated Chepauk, 4th March 1862, No. 188.

Enclosures 5.
1 Letter from District Engineer, Vizagapatam, No. 934, dated 18th November 1861.
1 ditto No. 1,240, dated 13th February 1862.
1 Abstract Estimate.
1 Report.
1 Plan.

Accompanying is an Estimate Rupees 132, with Plan, &c., for a small godown required to house the Stores of the Santapilly Light House, Vizagapatam District, and for some minor improvements.

2. Formerly these Stores were kept inside the Light House on the basement story, but a brick column having been raised in the centre for the purpose of increasing the altitude of the lantern shaft the space became obstructed and hence other provision has to be made for the Government property.

3. The Lascars' well requires deepening, at an expense of Rupees 5, and Rupees 2-14-1 are allowed in the Estimate for enclosing a verandah.

4. I beg leave to recommend the work for sanction.

Referred to the Marine Department for consideration.

(Signed) W. H. HORSLEY, Lieut. Col.,

6th March 1862.

Secretary to Government, P. W. D.

Referred for the remarks of the Superintendent of Marine.

FORT SAINT GEORGE,
7th March 1862.

(Signed) T. PYCROFT,

Chief Secretary.

No. 37. From J. J. FRANKLIN, Esq., Superintendent of Marine ; to the Honorable T. PYCROFT, Esq., Chief Secretary to Government, Marine Department, Fort Saint George, dated 12th March 1862, No. 823.

In returning the papers referred to me for remark under date the 7th instant, I have the honor to observe that it is proposed to build a detached godown for the safe custody of the Stores belonging to the Santipilly Light House, and that the necessity of it is represented as being occasioned by the room in which they were formerly kept, having been blocked up by a column which the raising of the light required to be erected there.

2. The amount of the estimate appears to be very moderate, but as there is already an Oil godown 12 feet square, it occurs to me that the Stores might be kept in that, in which case the new building might be dispensed with.

No. 38. ORDER THEREON, 18th March 1862, No. 72.

Referred to the Collector of Vizagapatam, who is requested to state whether the proposed expense may not be avoided by the arrangement suggested by the Superintendent of Marine.

(Signed) T. PYCROFT,

Chief Secretary.

Exd. F. Cartledge.

*built on a foundation of
walls are to be 8 feet high built
with*

1. Report on an Estimate for constructing a Store go down at the Santos Light House and of certain alterations and improvements required at that building.

2. Amount of Estimate Rs. (132) one hundred and thirty two, comprising the following items:-

23 $\frac{25}{27}$ Cyp^s of Stone in Chunar at Rs. 1-5-0 per Cyp. } 31-6-10

3 $\frac{91}{100}$ Sqr^s Roofing with country wood beam, wall plates, upright and Cap, country palmira rafters, piers, rails flat and pan-tiles, Chunar borders & complete at 12 Rs per Square — 4-6-14-9

8 $\frac{15}{100}$ D^s Plastering on both sides at Rs. 1-5-0 per D^s } 10-10-1

1 D^s Teak wood door complete 3 x 7 } 14-0-0

1 D^s Window 3 x 4 9-0-0
Closing Verandah of watch house } 2-14-1

Deepening Well 5-0-0

Superintendence at 5 Rs per cent 6-0-0

From Major Shaw Stewart (3)
Ag. Dy. Engr. Singapore

To Sir. Lt. Colonel F. B. Randall
Ag. Dy. Chief Engineer
Northam Circle

Sir, Under the Rule marginally
quoted, I have the honour to enclose for
sanction an estimate amounting to
Rs. 132-0-0, for certain improvements which
are much required at the Santapilly
Light house.

2. Some time ago the lantern
was raised, and for this purpose it was
found necessary to build a large masonry
pillar inside the Light house. This pillar
blocked up the whole of what formerly
was the store room; and since then,
the stores have been kept in the open
Verandah of the Superintendent's bungalow,
exposed both to the weather, and to the
chance of being stolen. The estimate
provided for building a small room,
14 feet by 12, to serve as a store room.

3. The watch house, in which
the lascars pass the night, is enclosed
on the east side by a Verandah open-
-ing towards the Sea. During every gale
the men suffer much from the wind
and rain driving in upon them, and the
estimate
