9TH JANUARY 1884, No. 12, MARINE.

GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

READ—the following papers:—

From Lieutenant-Colonel T. K. GUTHRIE, Acting Inspector-General of Police, to the Chief Secretary to Government, dated Madras, 17th October 1883, No. 5342.

I have the honor to forward, for the approval and sanction of His Excellency the Governor in Council, proposals from the Commissioner of Police in connection with the reduction of the Marine police rendered necessary upon the introduction of the new system of harbour tolls and preventive establishment.

2. I concur in the Commissioner's recommendations which I consider to be judicious.

ENCLOSURES.

From Major H. W. H. COX, Acting Commissioner of Police, Madras, to the Acting Inspector-General of Police, dated Madras, 8th October 1883, No. 698.

As the Marine police will be relieved of the greater part of the work now performed by them from the date on which the harbour tolls begin to be levied, a considerable decrease in the strength of the force must be made.

2. I have the honor to forward a detailed statement showing the present strength and monthly cost of the Marine police and the proposed strength of the 1 or harbour division and its monthly cost.

3. I have estimated for a first-class inspector principally in order that we may retain the services of Mr. Harrington, the present Superintendent of Marine Police, who is peculiarly fitted for the work to be done.

4. The strength of the proposed harbour division is slightly in excess of probable requirements, but I trust that you will be able to recommend the adoption of my proposal to Government subject to a report at the end of three months. By that time I shall be better able to judge to what further extent the force can safely be reduced.

5. I propose to provide for third-class inspector Simmons by making the junior fourth-class inspector in the force revert to his former grade. The sub-inspector will be absorbed by the discharge of the sub-inspector most recently entertained, unless you can provide for the latter by posting him to a mofussil district. A large proportion of the men are above 15 years' service, and so are eligible for pension under the Superannuation Fund Rules, and I presume that Government will grant them pensions without the production of medical certificates, but there will remain a good many who cannot be provided for in the harbour division and who are not fit to be drafted into the town force. These will be discharged, and application made for the gratuities to which they may be entitled.

6. I will give you details as soon as possible, but as there is no time to spare, I have the honor to request that you will submit my proposal to Government without waiting for this further detailed information which does not affect the principal matter to be settled.

STATEMENT showing the present strength and cost per mensem of Marine police and the proposed strength and cost of the harbour division of police.
