leakage. This has been made clear to the Port officer who is ready to accept these drawbacks in preference to exchanging the present Commodore's bungalow for a very much smaller one.

4. It would probably be difficult to sell the bungalow advantageously, and moreover if it was sold it would be impossible to obtain another equally good site for the new quarters which would have to be erected.

Order thereon no: 1832 W of 25th July 1895.

Communicated to the Marine Department with reference to G. O. dated 17th June 1895, no: 177 Marine.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

From the Suptg. Engineer's circle
No. 832 G. O. dated 8th July 1895.

Referring to the Proceedings of
the Madras Government No. ¹⁶²⁷⁴
4-7-95

I have the honour to inform you
that the approximate estimate of
Rs 14,000 was for taking down the
present building and rebuilding
it. The estimate of Rs 8650 is for
a very much smaller building.

2. I have inspected the marine
villa and consider that it may last
for a considerable time longer
if there is an annual expenditure
on repairs equivalent to what
would be allowed under the rules
for the repair of ^{the} new building pro-
posed.

3 This expenditure will not
keep the building in thorough repair
and no doubt at times the occupants
will suffer inconvenience from
leakage
