Requesting sanction

To The Chief Secy to Govt.
Marine Dept.

- The proposal apparently is
to exhibit two ordinary globe
(hurricane) lanterns from the
yard of the Post office flag
staff.
1. The oil used will, presumably,
be ordinary kerosine, obtained
locally and no special Estates
charges need be incurred as
the Extra duty will be small
and there are probably Signalers
available.
 2. When purchasing the lanterns,
care should be taken to obtain
lamps which will, if possible,
hold sufficient oil to keep
the light burning for the reg.
number of hours without
refilling. The reservoirs should
be of as large diameter as
is convenient to avoid
as far as possible, variations
in the burning level of the oil.
 3. In order to maintain
the distinctive character
within the limits of the assumed
range, the lights should be
placed 6 feet apart vertically
or horizontally for every unit
of range required.
