To

THE CHIEF SECRETARY TO THE GOVERNMENT OF MADRAS.

CHIEF SECRETARY
11 SEP 1895
GOVERNMENT OF MADRAS

Sir,

I am directed to acknowledge the receipt of your endorsement No. 226, Marine, dated the 30th July 1895, requesting that the orders of the Government of Madras sanctioning an addition of Rupees 100/ a month to the pay of the Harbour-masters, Madras, with effect from 1st July 1895, may be confirmed by the Government of India.

2. In reply I am to point out that the increase of pay requires the sanction of the Secretary of State, and the necessity for anticipating the approval of the Government of India and of the Secretary of State is in the circumstances not apparent. With the permission of His Excellency the Governor, a proposition statement with the present scale duly verified should now be submitted.

I have the honour to be,

Sir,

Your most obedient Servant,

R. M. Dane.

Rails at Tuticorin

H.E. the Gov
Hon. H.D. Bliss C.I.E.

CURRENT No. 687

The Chief Secretary,

Tuticorin. 27th. August. 1895

To Government,

CHIEF SECRETARY'S
30 AUG. 1895
GOVERNMENT OF MADRAS

Ootacamund.

Sir,

We the undersigned Merchants of Tuticorin are given to understand that it is the intention of Government to lay a line of rails from the Railway Station along the beach to the Government Jetty.

We understand that it is proposed to carry the line over the main road leading to the Railway Station across a corner of Messrs. Ralli Bros. compound and over the Beach road by level crossings in both cases.

We therefore, both as Merchants and as citizens beg to protest against the line being laid in that manner.

First, because it is never likely that a full train load of goods will require to be conveyed between the Government Jetty and the Railway Station:- Goods landed here being usually broken up into small parcels & re-booked to different Stations.

Second: As citizens we object to two of the Main roads near the centre of the Town being crossed by a line of rail and that diagonally on a curve as we believe the line is proposed to be laid.

There is already a surface crossing on the beach road right opposite the Railway compound so that if this proposal were carried out there would be three surface crossings all within a few yards of each other- two over beach road, and one over Station road. We think you will agree with us that this would be most objectionable to all wheeled as well as pedestrian traffic on these roads.

a 9/10 slip

We therefore beg to suggest that this difficulty be surmounted by placing a turning table right on the beach alongside the existing surface crossing, and that a line be laid along the beach to the root of the Government Jetty where another turning table could be made, and thus free communication by means of hand shunting would be established between the Government Jetty & the South Indian Railway, and we believe that no more is demanded at present by the traffic of this Port. In this way the two proposed surface crossings would be avoided, the existing one serving all purposes, and in addition, the difficulties connected with the cutting off of a corner of Messrs. Rallis' compound would be overcome.

We therefore beg to request that you will be good enough to lay our proposal before His Excellency in Council, and we trust he will see his way to meet our wishes.

TO BE RETURNED WITH REPLY.

Through the Collector of Tinnevelly.

Heading. No. 163 / 272 G

788

Presidency Port Office,
Madras, September 1895.

From

Commander W Powell, R. I. M.
Presidency Port Officer,
Madras,

To

The Chief Secretary to Government,
Marine Department,
Fort Saint George.

Sir,

With reference to the letter of the Tuticorin Merchants forwarded to me for report with Marine Current No 687 herewith returned, I find that with the exception of Messrs Adamson Macteggart & Co and Messrs Ralli Brothers the whole of the European Merchants at Tuticorin have private Jetties with tramway rails running across the very road referred to by them. There are also five railway level crossings in the Town and no accident appears to have been ever heard of as having been caused by them either to pedestrian or wheeled traffic.

2. The proposed route for the rails that are

are to carry the ballast waggons for the reclamation work does not run through Messrs Ralli Brothers' premises and it is presumed that if this route is good enough for that purpose it will serve also for the freight waggons.

3. The local Port Officer reports that in times of scarcity when food grains are urgently required up-country the facility of loading off the beach straight into freight waggons will save both time and expense to those concerned.

4. I do not consider the laying down of rails on the road by Government, dangerous. Those laid down by the Merchants themselves have not proved so.

I have the honor to be
Sirs
Your Most Obedient Servant
Wallis Bowden
Commander R. I. M.
Presidency Port Officer.

Returning marine Current No. 687 and pointing out that the proposed line of rails from the Railway Station along the beach to the Government Jetty (Intercoria) is not dangerous.

Marine

CURRENT NO 788

Endorsement on Cur No 1775 of 95

Submitted to Government.

2. I entirely agree with the local Port officer and the Presidency Port officer that a continuous line running from the Railway station to the shore end of the Government jetty will be infinitely preferable to the arrangement proposed by the merchants, which would entirely prevent any train from approaching the Government jetty and would cause great delay at times when it might be necessary to send large supplies of grain inland, also that the supposed danger to wheeled traffic in crossing a line such as has been or may be laid is not worth considering. Captain Baker informs me that the ballast line which has been laid across the road causes no danger whatever, having been most carefully laid.

3. The ballast line which has been laid from the Railway station to the Government jetty does not run through Messrs. Ralli Brothers' premises; but the permanent line will do so, and the Sub Collector,

acting under the sanction* of Government, has settled a compensation of Rs. 5,000 for the acquisition of the portion of those premises which are cut off by the permanent line, and the land has been already taken possession of by the Public Works Department.
