Letter from the Superintending Engineer, IV Circle,
No 394 W. dated 15th October 1895:-

With reference to G.O. No 1839 W. dated 25th July
1895, I have the honour to inform you that the estimate
of Rs 2,490 for raising the bund of the Cuva milagru
dam at Cochin, sanctioned in Circle Register No 40 of
1895-96 is now cancelled as the Executive Engineer, West
Coast Division, reports that the levels of high tide on
which his report was based were wrong, and that
the raising of the dam would be unnecessary, as the top
of the dam and the ground on which it abuts are very
nearly the same height, if anything, the ground is lower.
I therefore request that the grant for this work
referred to in^{the} G.O. under reference may be withdrawn.
