His Excellency the Governor in Council observes that the maintenance of the Dredger "Wenlock" does not seem to have been looked after in a systematic manner. The vessel has been allowed to lie at Tuticorin until so foul that she cannot steam against a moderate head wind, and -- when she is wanted for immediate use it is found that time is lost by the necessity of docking -- before use is possible: this is not the way to deal with an iron vessel. Every such vessel should be docked at fixed intervals, the length of -- which will depend on water in which she lies. It is understood that shipowners usually dock iron vessels at intervals of not more than 6 months, but perhaps if the "Wenlock" were laid up during the S.W. Monsoon in Cochin, in practically fresh water, she might go longer.

SIR,

With reference to G.O., Marine, No. 250, dated 21st July 1893, I have the honor to request that the sanction of Government may be obtained to levying a rent of 3 pies per diem per 100 square feet on ground within Port limits at Ponani. The Port officer, Cochin, on his recent inspection of the port of Ponani reported that all available land within Port limits was blocked up with stacks of bamboo blinds and no room left for passage. On enquiry I am informed by the Collector of Malabar that most of the lands within port limits at Ponani have long ago been sold to or passed into the possession of private individuals, and that there is only one piece of land belonging
