List No. I.

Additions and corrections to Marine Regulations, Volume I.

Para. 254, Part II. Add Rule 16 (a)—

The reappropriation statement mentioned in the preceding rule is to be submitted in all cases in which it is proposed to divert funds which have been provided in the budget estimates for a special purpose, to some other purpose for which no provision exists in the estimates, even although a transfer of funds from one head to another or from one grant to another may not necessarily be involved by the proposal. A reappropriation statement is therefore just as necessary when it is proposed to meet *fresh* expenditure from the sanctioned provision under the very grant and head of account to which it will fall to be compiled, as when it is proposed to meet the expenditure from savings in other grants.

(1-I-96.)

Para. 254, Part II. Add rule 22 (b)—

The submission of a special indent is admissible when the immediate replacement of stores lost or damaged on the voyage is considered advisable. When losses occurring on the voyage are known in England, steps are at once taken by the Store Department to replace the stores; it is therefore necessary to specify in the special indent the reason of the fresh demand in order that the possibility of a duplicate supply may be avoided.
