PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

Letter from the Presidency Port Officer, Madras, No. 163/147 G., dated 28th April 1896:-

I forward herewith (duly countersigned) for the sanction of Government an estimate approved by the Superintending Engineer, VI Circle, amounting to Rs. 2,500, for repairs to be effected to the new Pier at Tuticorin. The estimate has been prepared at my request, as the defective state of the Pier was noticed by me when I visited Tuticorin during the early part of this month, and the necessity of taking the repairs in hand was clearly seen. The defects appear to have been caused to some extent by the large cargo-boats rubbing up against the structure while landing and shipping operations are being carried on, and, I think, also to the iron supports and brackets connected with the wooden fenders and the deck of the structure not having been made strong enough in the first instance. The lightness of these supports and ~~brackets~~ brackets apparently escaped the notice of the Public Works Officer who examined the Pier prior to its being taken over from the contractors.

2. The cost of the repairs, viz., Rs. 2,500 can be met from the Tinnevely District Port Fund.

3. A report and specification and three plans received with the estimate are also submitted.

Endorsement thereon in the Marine Department, No. 259 E., dated 9th May 1896.

Transferred to the P. W. Dept.

Order

Order thereon: No. 1509W., dated 14 May 1896.

Communicated to the Superintending Engineer, VI Circle,
for sanction to the estimate.

2. A separate application will be made to the Financial
Department for funds.
