GOVERNMENT OF MADRAS.
MARINE DEPARTMENT.

READ—the following papers :—

From W. AUSTIN, Esq., I.C.S., Chairman, Harbour Trust Board, Madras, to the Joint Secretary to Government, Marine Department, dated 13th May 1896, No. 618.

I have the honour to forward, for the information and orders of Government, copy of a resolution passed by the Board at its meeting of the 8th instant.

2. The Board consider that it is very desirable that Mr. Pogson should personally consult with Sir Alexander Rendel as to the best means to be adopted to strengthen the south arm of the harbour, and to prevent further shoaling; also that he should visit such works at Home as in the opinion of Sir Alexander are likely to afford useful experience to Mr. Pogson in dealing with the various difficulties that have already arisen, or are likely to arise in the future at Madras, and also that he should make enquiries regarding the plant likely to be required for future improvements when sanctioned, and if possible, to see such plant in actual operation.

3. The Board desire to take advantage of Mr. Pogson's going Home on leave to attain these ends, as by doing so the cost will be comparatively trifling, Mr. Pogson paying the cost of his passages Home and out again, and the time occupied by him in going to and returning from Europe will be saved to the Board as it will be covered by the leave now granted. In these circumstances I trust that the sanction of Government may be accorded to the arrangement now proposed by the Trustees.

ENCLOSURE.

EXTRACT of Proceedings of the Trustees of the Harbour of Madras, at a Meeting held at the offices of the Board, on Friday the 8th day of May 1896.

3. Read letter No. 86, dated 30th April 1896, from the Board's Engineer, applying for 3 months' privilege and 15 days' casual leave, dating from about 20th or 22nd June.

Read minutes by Trustees.

Resolved that the Chairman is invited to address Government on this question. The Trustees are willing, in consideration of his services, to allow Mr. Pogson to proceed to Europe on duty on full pay for one month, and after that time to avail himself of such privilege leave as he may be entitled to. Cost of Mr. Pogson's passage to and from Europe to be defrayed by himself. The Trustees are desirous that Mr. Pogson should personally consult Sir A. Rendel as to the best means of strengthening the south wall and of preventing further shoaling, also to make enquiries regarding the plant likely to be required for future improvements when sanctioned. Mr. Pogson will submit a report in due course.
