గోదావరి జిల్లా ప్రభుత్వ గజెట్ నంబరు 17

COCANADA, — SATURDAY 1, AUGUST 1896.

కాకినాడ, — శనివారము 1, ఆగష్టు 1896 నంబరు 17.

Minutes of a Meeting of Members of the Godavari District Ports Conservancy Board, Cocanada, held in Port Office, Cocanada, on Wednesday, the 22nd July 1895, at 7-30 A.M.

Present:

V. A. Brodie, Esquire, — Chairman.

T. Kipping, Esquire, — Vice-Chairman.

H. R. Scott, Esquire, Member.

SUBJECTS.

1. Read letter from the Municipal Chairman, Cocanada, No. 390/23 G. L., dated 27th June 1896, enclosing a sketch of masonry seats to be constructed at the sea shore, and requesting to know if there is any objection for his doing so.

The Harbour Board has no objection to the Council extending its road as proposed and making a platform at the end, but objects to masonry seats, for the Board must reserve full rights in the land and require it to be surrendered should it ever be required for Harbour Board purposes. For this reason the Board would prefer that the Council should place iron garden seats on the platform and not erect masonry ones as the former in case of necessity can easily be removed.

2. Read Port Officer's report for the month of June 1896.

Read and recorded.

3. Read Port Dues and Landing and Shipping Dues Accounts for June 1896.

Read and recorded.

4. Read forty applications for refund of Landing and Shipping Dues amounting to Rs. 38-14-5.

Sanctioned.

5. Read Deputy Conservator's letter No. 838, dated 20th July 1896, to the Chairman of the Board, stating that the reclamation of triangular piece of land near Cranes and Customs Road is stopped as the Railway authorities took no steps to remove their material in the way.

The Deputy Conservator is requested to give a peremptory notice to the Railway Company to remove their surplus well curbs within a fixed period say 1 month. The Board must remark that if the Railway has no use for them, and apparently it has not, as they have been lying where they are for years, they might be utilized for the Madras, Bezwada extension with advantage to the general tax-payers in place of encumbering the Board's land. In any case they have been far too long where they are, and the Board must insist on their being removed without any further delay as it requires the land they occupy.

SUBJECTS.

1. Read memorandum received from Mr. J. C. Larmanie, Superintending Engineer, P. W. D., regarding the three alternatives feasible, as a remedy to the existing block at the mouth of the Cocanada River. Also Mr. Robertson's report and Mr. Walch's note on the subject.

The Board would prefer to postpone coming to a decision as to which alternative should be adopted until it has Mr. Larmanie's detailed report before it, and it has had an opportunity of consulting several gentlemen with long experience of the port who are at the present moment absent at home. The question is one of such vital importance, that the Board is most averse to deciding it in any thing like haste.

2. Read copy of letter from the Deputy Collector, Head Quarter's Division, Godavari, to the Chairman, Municipal Council, Cocanada, dated 27th March 1896, requesting the Board to let him know to what extent of the whole portion of foreshore taken up by the Railway belongs to the Port Conservancy Board.

The whole of the land was exclaimd by the predecessors of the Board and all that was allowed to the Municipality was the privilege of constructing a road on it. In the opinion of the Board the Municipal Council is entitled to so much of the land as is occupied by the actual road way and no more.

COCANADA,—MONDAY 2, MARCH 1896.

కాకినాడ—సోమవారము మార్చి 2, 1896 సంవత్సరము.

Minutes of a Meeting of Members of the Godavari District Ports Conservancy Board,
Cocanada, held in Port Office, Cocanada, on Thursday the 23rd January 1896,
at 7-30 A.M.

PRESENT:

V. A. Brodie, Esq.—*Chairman*.

M. R. Ry. Batham Venkataratnam Garu, Member.

(2) „ Nalam Padmanabham Garu „

SUBJECTS.

1. Read letter from the Superintendent of Sea Customs, Cocanada, to the Deputy Collector in charge of Sea Customs, Godavari, dated 8th November 1895, recommending to sanction the refund of Rs. 46-10-0, on account of Wharfage and Landing and Shipping Dues, to B. Annaparaz Garu. Also Port Deputy Conservator's and Vice-Chairman's opinion thereon.

In the circumstances of the case refund is sanctioned of Rs. 46-10-0, of course each application received must be disposed of on its merits and no hard and fast rule can be laid down.

2. Read letter No. 22 of 8th instant, from the Deputy Conservator of the Port to the Chairman of the Board, stating that there is found much difficulty in completing the last 60 feet or so of the North Groyne extension owing to the end slipping in through the action of the current. Also an estimate for Rs. 752, to continue the base up to low water mark.

The course proposed appears to be the only feasible one. It is therefore approved and the amount sanctioned from the current allotment, which it is hoped will suffice. If not sanction of Government for the estimate and necessary additional allotment will be applied for.

3. Read D. P. W. bill for Rs. 349-1-11, being cost of repairing the machinery of the Priestman Dredger.

Payment sanctioned.

4. Read letter, dated 11th November 1895, from Batham Venkataratnam Garu, objecting the payment of bill for Rs. 300, being hire of the Tug "Godavari" for working at the "Thisbe". Also the Superintendent's report thereon.

To lie over.

MEMORANDUM.

PRESENT:

V. A. Brodie, Esquire., c. s., Collector, Godavari, and—*Chairman*, Godavari, District Port Conservancy Board.

J. Innes Esq.,—*Vice-Chairman*, Do.

A. Brereton Esq., Engineer-in-Chief, East Coast Railway.

M. R. Ry. Rao Bahadur, K. Rustumsingh Averghal, Head Quarters Deputy Collector, Cocanada.

K. Seshachalapati Row Garu,—*Chairman*, Municipal Council, Cocanada.

G. W. Wicks, Esq.,—Deputy Conservator of the Port.

SUBJECTS.

So long as the Railway undertakes not to interfere in any way with the fairway of the Canal, the Port Conservancy Board appears to have no ground to oppose its proposal to take up the foreshore for Railway purposes, of course if it is ever proposed to erect jetties or a sea wall on the bank of the canal the plans for the same must first be submitted to the Board and approved by it.

As regards the objection of the Municipal Council, it is clear that none of the land wanted by the Railway Company belongs to it except the existing roadway. If the Railway on its part undertakes to construct and make over to the Council another road, further to the North to be substituted for the existing one, the Chairman states that he does not see what objection the Council can have to make to the proposal, and I concur with him.

COCANADA,

11th January 1896.
