GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper :—

From W. AUSTIN, Esq., I.C.S., Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 24th July 1896, No. 1304.

I have the honour to submit the annual Administration report of the Stationery Department for the year 1895–96 with the usual appendices from A to H.

2. An abstract of the receipts and issues of the year under review as compared with those of the previous year is subjoined :—

	1894–95.	1895–96.
	Rs.	Rs.
Value of stock at the beginning of the year	3,83,703	3,68,896
„ of stores received	5,61,059	6,27,691
Total ..	9,44,762	9,96,587
Value of stores issued	5,75,866	6,48,940
Value of stock at the end of the year	3,68,896	3,47,647

3. The details of the receipts are—

(1) Europe articles received from the Secretary of State for India	2,03,420	2,19,766
(2) School books and materials obtained from Messrs. Baker and Co., London	2,266	608
(3) Europe articles purchased locally	1,354	841
(4) Do. received from other Presidencies.	34,349	11,004
(5) Country articles purchased locally, &c.	2,75,875	3,64,917
(6) Do. received from other departments.	12,793	12,788
(7) Articles returned by officers	3,552	3,966
(8) Receipts by adjustment	27,450	13,801
Total ..	5,61,059	6,27,691

4. *Item* (1)—*Stores received from the Secretary of State for India.*—The value of stores received from the Secretary of State during 1895–96 amounted to Rs. 2,19,766 against Rs. 2,03,420 in 1894–95; the increase is mainly due to the receipt for the first time of the marginally-noted articles. Type writers and punch-plyers were obtained for issue to public offices; magic lanterns for British Army schools and the machines for testing paper obtained from contractors.

	Rs.
Type writers	14,717
Punch-plyers	534
Magic lanterns	877
Machines for testing paper	505
Total ..	16,633

5. *Item No.* (2)—*School books and materials from Messrs. Baker and Company, London.*—There was a large stock of books on hand and so only a small number, to make up the requirements, was indented for; hence the large decrease of Rupees 1,658 under this item.

6. *Item No.* (3)—*Europe articles purchased locally.*—The undermentioned Europe [illegible] al forms, [illegible] ing been none in in connec[illegible]

Total ..	7,216	6,730

15. *Substitution of Country for Europe Articles.*—Statement F gives the details of articles of Indian manufacture obtained and substituted for those of European make during the year under review. The total value of the articles amounted to Rupees 3,36,910 and the savings effected by their substitution to Rs. 1,95,382 against Rupees 2,46,338 and Rs. 1,58,700 respectively in the preceding year. One M.R.Ry. P. Venkata Row, Taluk Sheristadar of Tiruchengódu, in the Salem district, discovered an Indian substitute for the English cyclostyle ink. It is made of gingelly oil and lamp black produced by burning cotton wick soaked in the above oil. The method of its preparation is simple. It costs about As. 4–3 per bottle, while the English ink costs Rs. 1–1–2. Fifty bottles of this ink have been obtained and distributed to Collectors for trial and report as to its suitability. The question of its substitution for the English article will be settled after the reports of the Collectors have been received. Having been informed that penknives were manufactured at the Mamally Coffee Works in the Malabar district, I obtained samples and tested them; but they were found to be of an inferior quality.

16. *Issues.*—Six hundred and fifty-four indents or 110 less than in 1894-95 were received and complied with during the year as shown in the margin. Some of the annual indents for 1896–97 were received and supplied after the 31st March 1896; hence the decrease. In the number of supplemental indents received there was a decrease of 69. These were complied with after obtaining satisfactory explanation for their necessity from the officers concerned. The details of the supplemental indents are given in Appendix G. The total value of the issues amounted to Rs. 6,48,940 against Rs. 5,75,866 in the previous year as shown in the following table which is an abstract of the Appendix E. This appendix has been prepared in accordance with the instructions contained in G.O., No. 660, Financial, dated 5th September 1895:—

17. For want of a sufficient stock of certain country articles in store, the indents received in 1894–95 were only partly complied with in that year and the balances had to be supplied in the year under review. As already stated in paragraph 8, an additional grant of Rs. 75,000 was obtained during the year for the purchase of the necessary articles to meet the above balances. The marginally-noted articles to the extent of Rs. 15,494 were for the first time obtained and issued. These as well as the increase of demands from certain departments account for the increase of issues. From column 8 of the above statement, it will be observed that there was an increase of Rs. 4,980 under Imperial, Rs. 62,037 under Provincial, and Rs. 19,254 under other issues. That under Imperial occurred in the offices noted below. The Postmaster-General himself demanded papers, &c., valued at Rs. 4,225 for printing post cards and certain departmental books and forms:—

	Rs.

Carbon paper	245
Manifolding paper	72

The increase under Provincial was largely shared by the departments named below:—

There were larger demands for paper for printing forms from the Commissioners of Revenue Settlement, Salt and Abkári Revenue, the High Court and the Inspector-General of Police, from the Superintendent, Madras Survey, for the Madras Town Survey purposes, and from the Superintendent, Government Press, for printing the Manual of the Accountant-General's Office and the revised edition of the Manual of Sanitation, &c. The issues to the District Registrars for 1895–96 amounted to about Rs. 10,000, while those for 1894–95 to only Rs. 128. The supply of stationery to District Registrars direct from this office was taken up only in 1894–95.

The supply of type-writers and carbon and manifolding papers valued at about Rs. 3,000 to the Government Secretariats chiefly accounts for the increase under the General Administration. The increase under Civil Works is mainly due to the issue of type-writers, &c., to the Public Works Secretariat, Chief Engineer for Irrigation and the Consulting Engineer for Railways, to the value of about Rs. 2,000, of paper ... about Rs. 7,000 to the Examiner, Public Works Accounts, for printing ... al forms, of draw... materials to the e... in conne...

required for the Heliographic printing process to the Superintending and Executive Engineers to the value of about Rs. 2,600 and to the increased demands for mathematical instruments generally and to the formation of certain new divisions.

18. *Sales.*—The value of issues on payment during the year amounted to Rupees 39,514, or Rs. 8,508 over and above that in 1894–95. The excess is due to large demands from the State Railways and Local Fund Boards.

20. *Balance of Stock.*—The value of stock at the close of the year was Rs. 3,47,647, against Rs. 3,68,896 in 1894–95 as detailed in Form D. Every endeavour is being made to reduce the stock on hand.

21. *Consumption.*—The annexed Statements Nos. I to IX exhibit the consumption of some of the important articles of stationery in the undermentioned departments during 1894–95 as compared with that in 1893–94. The figures were taken mostly from the indents for 1896–97 which were complied within the year under review :—

There was an increase in the consumption of almost all articles in 1894–95, especially in regard to printing paper, black-ink powder and tape. The issue of printing paper to village officers either in the shape of printed forms or blank paper and that of black-ink powder to Taluk officers, who used formerly to purchase the article locally and the re-arrangement of records according to Dr. Macleane's system in certain districts, account for the increase under these articles. The increase was chiefly in the districts noted below :—

Printing Paper.	*Black-ink Powder.*	*Tape.*
Bellary.	North Arcot.	Bellary.
Chingleput.	South Arcot.	Cuddapah.

24. *Judicial.*—The consumption of the several articles in the District and Subordinate Courts is shown in the subjoined table. In the former there was an increase under all the articles, but it is very small when each office is taken separately except in the case of black-ink powder. The consumption of this article in the District Court of South Malabar in 1894–95 is about five times that in the previous year. The differences in the consumption in the Sub-Courts are trifling.

Although the differences appear to be small, the consumption of black-ink powder and sealing wax in the marginally-noted district offices was rather high. South Arcot, Vizagapatam and Trichinopoly offices used in 1894–95 more than double and Bellary more than treble the quantity of black-ink powder used in 1893–94, while the quantity of sealing wax consumed in 1894–95 in South Arcot and Tinnevelly was about double, in Nilgiris treble, in Cuddapah six times, and in South Canara eight times that in the previous year.

The consumption of almost all the articles in the Superintending Engineers, &c., offices shows a decrease, while the differences in the Divisional offices are very small. There was, however, a large expenditure of wax cloth and twine in the following offices :—

There was a larger consumption of writing and country and cartridge papers. The increase occurred chiefly in the Registration Department and the Government Press.

29. The foregoing remarks were mostly based upon the differences in the total consumption of the several articles in the several departments, but an insight into the details furnished in the statements I to VIII will elicit many other differences which are quite out of proportion. There is still much room for economy. The check on the consumption rests with the heads of offices. A close study of the Stationery Rules and the strict maintenance of the several registers of accounts therein prescribed will enable every officer to check the growth of expenditure in his department as far as possible.

30. *Rubber Stamps.*—Statement H shows the details of the rubber stamps and ink supplied during the year and the following is an abstract. The total cost of the stamps, &c., amounted to Rs. 6,730, or Rs. 486 less than in 1894–95 :—

35. *Verification of Service Books, &c.*—With reference to the orders quoted in the margin, I certify that the service books of the employés in this office have been duly verified up to 31st March 1896, except one which is being prepared, the original having been mislaid. An inventory of valuable stock was duly maintained.

G.O., No. 396, Public, dated 22nd Feb. 1886.
„ „ 920, Finl. „ 18th Sept. 1893.

36. *Examination of Stock.*—Under G.O., No. 574, dated 8th August 1895, the stock of stationery articles, &c., was verified with the books in August 1895 by the Assistant Collector of South Arcot, Mr. S. G. Roberts, I.C.S., and his report is recorded in G.O., No. 702, dated 19th September 1895.

37. *Audit of Accounts.*—The accounts for 1894–95 were, as usual, audited by the Chief Superintendent of the Accountant-General's office in November 1895 and his report is recorded in G.O., No. 133, dated 2nd March 1896.

Order—No. 516, Financial, dated 26th August 1896.

The value of stores received by the Superintendent of Stationery during 1895–96 was ·67 lakh in excess of the corresponding figure in the previous year. The increase was mainly due to the receipt from the Right Honourable the Secretary of State for India of larger quantities of articles of European manufacture (·16), and to a rise of ·89 lakh in the value of country articles purchased locally and received from other departments. Decreases occurred under school books obtained from Messrs. Baker & Co., London, articles of European manufacture purchased locally and received from other Presidencies (·24), and receipts by adjustments. The issues amounted to 6·49 lakhs or ·73 more than in 1894–95, and there was stock to the value of 3·48 lakhs in hand at the close of the year against 3·69 lakhs at its commencement.

2. The increase under stores received from the Secretary of State was almost wholly due to the type-writers procured for public offices. That under country articles was occasioned by larger purchases of paper from Indian mills (3·29 lakhs against 2·40) and by the decision to procure locks from manufacturers at Dindigul in lieu of Chubbs' locks from England. The articles of European manufacture obtained from other Presidencies consisted principally of royal hand-made paper forwarded by the Superintendent of Stationery, Calcutta, with a view of reducing his surplus stock and of mathematical instruments required urgently by the Public Works and the Survey departments.

3. Towards the increase in issues, Imperial heads contributed ·10 lakh and Provincial ·44, whilst sales and adjustments accounted for ·19. The issues made for consumption during the year showed an increase of ·86 lakh as follows :—

	Lakh.
Imperial heads	·05
Provincial heads	·62
Sales and adjustments	·19

4. The attention of the Honourable the Judges of the High Court, the Public Works department and the Board of Revenue will be drawn to the remarks in paragraphs 21–29 of the report as regards the increased consumption of certain articles, particularly to the enormous advance in that of black-ink powders in the District Court of South Malabar, for which no explanation is offered in the report. The Board of Revenue should also ascertain the reasons for the very great advance in the consumption of sealing-wax in the districts of Cuddapah and South Canara, and take measures to check waste in these districts if there has been any. The Superintendent is of opinion that there is still much room for economy generally, and His Excellency the Governor in Council would again draw the attention of all heads of departments to the necessity for a strict adherence to the Stationery rules—a matter which was dwelt on in paragraph 7 of the review on the Stationery report for 1893–94. In this connection the Board of Revenue, the Inspectors-General of Police, Prisons, and Registration, the Surgeon-General and the Director of Public Instruction will be requested to institute some system whereby the proper maintenance of the registers prescribed in the Stationery rules and their regular check in subordinate offices may be ensured by periodical inspections or otherwise. The Government would be glad if the Honourable the Judges of the High Court would take into consideration the adoption of a similar system of check in the courts throughout the Presidency.

Paragraph 29 of report.

G.O., Nos. 693–698, dated 6th September 1894.

5. The Government of India has recently drawn attention to the necessity for maintaining balances of stock on as low a level as is consistent with the conduct of business, and the Superintendent states that every endeavour is being made to reduce the stock on hand. Forms B and D appended to the present report show, however, that there is still great scope for further reduction, the balances of some

Paragraph 20 of report.

items being much in excess of the issues for the past year, and the Government trusts that the Superintendent will devote careful attention to this point. If necessary, he should communicate with the Superintendents of Stationery in other provinces in view to ascertaining whether any articles in the Madras Stationery office, of which the stock in hand is obviously in excess of requirements, can be conveniently utilized by them.

6. The savings effected during the past five years by the substitution of articles of Indian manufacture for those obtained from Europe compare as follows :—

Paragraph 15 of report.

	Rs.
1891–92	3,458
1892–93	36,400
1893–94	49,206
1894–95	1,58,700
1895–96	1,95,382

The Superintendent is, it is observed, in communication with the Stationery offices in other presidencies as regards certain articles of country manufacture. He has also under trial samples of country-made cyclostyle ink which is procurable at one-fourth the price of the English article, and it appears to be evident that he is keeping himself in touch with local manufactures. It is by means of further inquiries such as those already undertaken that the figures quoted above, which speak for themselves as to the scope for economy, can be expected to increase in future years. His Excellency the Governor in Council has no doubt that a further advance is practicable. It will probably be found possible in many cases to substitute, at a saving of cost, superior articles of local manufacture for those from Europe, *e.g.*, blotting paper which are admittedly of inferior quality. The necessity for obtaining fuchsine of a better description than that now issued has lately been impressed upon the Superintendent and there are other directions in which there is ample room for improvement in quality. The report on the suitability of the papers manufactured by Indian mills has not yet been submitted by the Superintendent and further delay in this matter should not be permitted to occur; orders as regards the introduction of these papers were issued two years ago and there has been sufficient time for a fair trial. That on the locks manufactured by Messrs. Periatambi Asari & Sons of Dindigul and referred to in paragraph 11 of the report will be awaited.

G.O., Mis. No. 411, Financial, dated 7th July 1896.

7. The attention of the Inspector-General of Prisons will be drawn to the remarks in paragraph 10 of the report in regard to the inferior quality of the sealing wax and wax-cloth supplied by the Jail department and to the price of the latter article as manufactured at Calcutta. In the circumstances reported by the Superintendent, his proposal to obtain from Calcutta about *50 per cent.* of the amount of wax-cloth required for issue is sanctioned.

8. There was a satisfactory fall in the number of supplemental indents from 240 to 171. The following officers are credited with 4 and upwards :—

Postmaster-General	7
Superintendent, Revenue Survey	4
Collector of Anantapur	4
Superintendent, Government Press	5
Executive Engineer, Bellary Division	4
Do. South Arcot Division	4

9. Rubber-stamps and inks and other accessories for the same were issued to the value of Rs. 6,730 against Rs. 7,216 in 1894–95, the number of stamps being 1,016 against 1,107. The report should have contained some explanation of the large number (147) of stamps shown in form H as issued to the Inspector-General of Police. The attention of the Lieutenant-General Commanding the Forces, Madras, will be drawn, through the Deputy Adjutant-General, to the heavy indents appearing in some cases under *46. Military* in the same form, and he will be requested to be so good as to impress upon officers the necessity for careful scrutiny of demands for these articles.

10. Eighteen Collectorates have now been included in the system of supply of printed forms from a central depôt, and those of South Canara, Malabar and Vizagapatam have, it is understood, been since added. Of Collectorates, Madras alone remains, and there appears to be no reason for its exclusion. The Board of Revenue will be requested to take the necessary steps. The savings effected by this mode of supply are computed at Rs. 4,109 in 1895–96 against Rs. 3,246, Rs. 3,664 and Rs. 1,338 in the previous three years. It is observed that in the statement appended to paragraph 31 of the report the saving in the Coimbatore district resulting from the supply of printed forms through the Stationery Department is put down at Rs. 2,387—a figure not nearly approached by any other district. No reason for this is assigned. The matter seems to call for investigation by the Superintendent. The report does not mention the progress made in the supply of forms to the Agency offices in Ganjám, Vizagapatam and Gódávari, which was directed in G.O., No. 679, Financial, dated 10th September 1895. The Honourable the Judges of the High Court will be requested to favour Government with information as to the action taken on the suggestion in paragraph 3 of the same order that the forms required in District and Sessions and Subordinate Judges' Courts should be similarly procured.

11. The supply of goose quills has not been alluded to by the Superintendent, and the special report on this subject, which it was stated last year was under preparation, has not yet reached Government. The supply of peons' clothing, which, so far as Presidency offices are concerned, was transferred to the Superintendent of Stationery last November, receives only passing mention in paragraph 34 of the report. Each of these questions should be dealt with in a special communication at an early date.

G.O., No. 890, Financial, dated 12th November 1895.

12. The administration of the department continued to be satisfactory.
