11.12.97

GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

READ—the following papers :—

From the Meteorological Reporter to the Government of India, to the Chief Secretary to the Government of Madras, dated Simla, 27th October 1897, No. 732/S.

I have the honour to invite your attention to the publication in the supplement of the *Gazette of India*, Saturday, October 23rd, of the uniform system of storm signals for the Indian coast ports (except those in the river Hooghly).

In the covering letter it is requested by the Government of India that the rules may be brought into use at once and published in the local Gazette.

In this connection I have the honour to point out that the change may necessitate the supply to the ports concerned of fresh signals and that these arrangements will require a certain amount of time which will vary with the circumstances of each station, while it is obviously desirable that the warning officers concerned should have only one set of signals to deal with. It is hence desirable that the change to the new code of signals should take place synchronously throughout India, and I have the honour to ask by what date the supply of new signalling apparatus and the publication of the new code could be arranged for in Madras.

This department would be disposed to propose January 1st, 1898, as the date of commencement, if that would give time for the necessary preliminary arrangements.

No. 2317, Public.

M. E. COUCHMAN,
Acting Assistant Secretary.

R. No. 2147, Revenue.

Transferred to the Marine Department. It is presumed that steps have been taken to have the notification republished in the local Gazette.

19th November 1897.

(Signed)

N. E. MARJORIBANKS,
Ag. Under Secy. to Government.

No. 699 E., Marine.

Referred to the Presidency Port Officer for report as to the date to be fixed for the introduction of the revised arrangements.

25th November 1897.

(Signed)

W. B. DEWINTON,
Ag. Chief Engineer.

From Commander H. A. STREET, R.I.M., Presidency Port Officer, Madras, to the Secretary to Government, Marine Department, dated 1st December 1897, No. 422/424 G.

In reply to Marine Department Endorsement, No. 699 E. of 25th November 1897, on current No. 1488 (herewith returned), I have the honour to state that the fixing of a date for introducing the revised system of storm signals at ports in this Presidency depends upon when the required number of red signal lamps reach India and are received at the respective ports on distribution from Madras. As I infer from the reference now made that the telegram suggested to be sent to the India Office has not yet been despatched, I would suggest the 1st of April next as a suitable date, by which time all arrangements can be fully completed. Between the end of December and beginning of April, bad weather is unlikely to prevail, and there is therefore no absolute necessity for fixing upon an earlier date.

ORDER—No. 1014, Marine, dated 11th December 1897.

His Excellency the Governor in Council will have no objection to the 1st April 1898 as the date for the introduction into the Madras Presidency of the new system of storm signals. It is hoped that by this date the signal lamps indented for on the Home Government will have been received and distributed.

THE SECRETARY TO GOVERNMENT,

ШЕРАК.

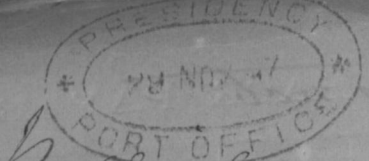

Sir,

In reply to Marine Department
Endorsement no 6998 of 25th November 97,
on Current no 1488 (herewith returned)
I have the honor to state that the
fixing of a date for introducing the
revised system of storm signals at
ports in this Presidency depends upon
when the required number of red
signal lamps reach India and
are received at the respective ports
on distribution from Madras. As I
infer from the Reference now made
that the telegram suggested to be
sent

sent to the India office has not yet been despatched, I would suggest the 1st of April next as a suitable date by which time all arrangements can be fully completed. Between the end of December and beginning of April, bad weather is unlikely to prevail, and there is therefore no absolute necessity for fixing upon an earlier date.

I have the honor to be,
Sir,
