Financial Department.

Memorandum No. 2408.

READ the following paper:—

Departments of the Secretariat are requested, in dealing with the budget estimates for 1898-99, to eliminate all proposed increases which are not absolutely necessary or which are not covered by corresponding increases of revenue. Any tendency evinced in the revised estimates of expenditure for the current year to exceed the budget grants should be immediately checked unless the excesses are absolutely unavoidable or due to famine or similar special causes.

2. Departments of the Secretariat are also requested to make every endeavour to place the Financial Department in possession of the estimates for 1898-99 as early as practicable, as the peculiar circumstances of this year render it necessary that an approximate forecast of the financial position should be obtained with the least possible delay.
