The flagstaff at Cannanore having been found unfit for further use, I placed myself in communication with the Director, Royal Indian Marine, Bombay, respecting the supply of a new spar, and have arranged with him for one, the cost of which is estimated at Rs. (785) seven hundred and eighty-five, exclusive of freight and shipping charges, and beg that sanction to the expenditure may be accorded.

In reply to official memorandum, No. 320 E., dated 6th May 1897, I have the honour to acquaint you, for the information of Government, that, prior to arranging with the Director, Royal Indian Marine, for the supply of a flagstaff, due enquiry was made as to the probability of obtaining a suitable spar for the purpose locally, and that the Port officer, Tellicherry, reported that the District officer had informed him that no suitable log could be obtained.
The mast from Bombay is of iron and likely to last longer than a wooden spar.

SUBJECT.

Requesting sanction to the
is celebrated for the supply of poor expenditure in connection
of a new spar which is excellent for such with the supply of a new
purpose - Is this not so? If so, spar for Cannanore.
Why does the P.P.O. need to go to Bombay
for what he wants? Probably he will
get a spar sent to him which originally
came from Malabar, which would be absurd.

From the Presidency Port Officer, Madras, No. 135 G., dated 14th April

1897.

No. 32052/b May 1897

It is understood that the Malabar Coast is celebrated for the supply of poon spars which are excellent for the purpose in view. If this be so, there is no necessity to go to Bombay from which a spar would probably be sent, which had originally been obtained from Malabar. The undersigned is, accordingly, directed to request that the Presidency Port Officer will be so good as to make further inquiry and report the result.
