SIR,

I am directed to acknowledge the receipt of your letter, dated 30th April 1897, forwarding, for reference, three certificates issued at the port of Kilakarai, and in reply, to transmit for the information of His Excellency the Governor, the accompanying copy of the Proceedings of this Government in the Marine Department, No. 549, dated 17th June 1897, from which it will be seen that the persons who signed the certificates in question, though Government officials, were not duly authorized to issue them. The port has, however, now been made an inspection port, and a Port Health officer appointed under the Epidemic Diseases Act.

I have the honour to be,

Sir,

3. Bills of health should be issued in the form prescribed in the regulations.
4. Ordered that the following notification be published in the Fort St. George and the Madura District Gazettes:—

NOTIFICATION.

In exercise of the powers conferred by Act III of 1897, the Epidemic Diseases Act, His Excellency the Governor in Council is pleased to declare that all vessels and persons leaving the port of Kilakarai in the Madura district for ports out of India shall be subject to the regulations published on pages 517 and 518 of the Fort St. George Gazette of the 13th April 1897.

5. The duties of Health officer under these regulations shall be discharged by the hospital assistant at Kilakarai.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Marine Department, dated Ootacamund, 14th June 1897, No. T. 2/107.

In returning the accompaniments of your endorsement No. 325 E., dated the 8th May 1897, I have the honour to state that two certificates were granted by the hospital assistant of Kilakarai who is a Local Fund subordinate receiving one-eighth of his pay from Government for performing Government duties. He explains that he had no proper forms of bills of health with him.

2. The third certificate was granted by the Assistant Superintendent of Sea Customs.

3. There is apparently no specific order authorizing the hospital assistant at Kilakarai to grant bills of health to ships — but as a medical man and the sanitary officer of the station he is, in my opinion, competent to do so — specially, as certificates from him and his predecessors have always been accepted.

4. I am not aware if there is any order authorizing the Assistant Superintendent of Sea Customs to grant such certificates.

5. I regret the delay in sending my reply; it has been due to the fact that I had to write twice to the District Medical and Sanitary officer, Madura, on the subject before I could get all the necessary information.

ORDER—No. 549, Marine, dated 17th June 1897.

His Excellency the Governor in Council observes that the port of Kilakarai is not an inspection port under the rules issued under the Epidemic Diseases Act, and neither the Hospital Assistant nor the Assistant Superintendent of Sea Customs has been appointed a Port Health officer under that Act. They were, therefore, not authorized to issue the certificates in question.

2. As, however, there is a medical subordinate at the port reported to be competent to perform the duties, he will be appointed Port Health officer, and the place made an inspection port.

3. Bills of health should be issued in the form prescribed in the regulations.
4. Ordered that the following notification be published in the Fort St. George and the Madura District Gazettes:—

The port of Kilakarai
is not an inspection port under
No 334 Marine of 3rd April 97,
and neither the Hospital
