ORDER No. 319-M., dated 27th February 1897.

The following notification will be published in the Fort St. George George:-

Notification.

The Governor in Council hereby appoints the Railway Station at Arkonam junction in the North Arcot District to be an inspection station under No. 14 of the regulations prescribed under the Epidemic Diseases Act 1897 for District Municipalities and towns and villages.

2. The President of the North Arcot District Board is requested to take steps at once to provide hospital and segregation huts at Arkonam in survey Nos. 14 and 13 of the Annamur village to the south of the Railway Station, which has been selected as the most convenient site for the purpose being near the railway station having a good and sufficient water supply and with some old buildings, which can apparently be made useful. To start with it seems sufficient if there are provided one male and one female hospital hut for Europeans and Eurasians to accommodate say two persons in each; one male and <sup>one</sup> female hospital hut for natives to accommodate say four persons in each with the same number of segregation huts. These huts should preferably be in the plot of land farthest from the railway quarters; while the old buildings may furnish accommodation for the medical staff and stores. But these are points which the Collector will best be able to determine when he inspects the ground. The nature of the accommodation to be provided may be on lines similar to that approved in the case of Guntakal-Vide G.O.

3. The Surgeon General will be requested to depute at once a commissioned medical officer and an <sup>and a female apothecary</sup> apothecary with a sufficient number of Hospital Assistants to Arkonam for the inspection of Railway passengers from plague stricken tracts.

4. Arrangements should be made for the attendance of a Tahsildar or Deputy Tahsildar with second class magisterial powers to assist the medical officer in conducting the examination of passengers at Arkonam and to try breaches of the regulations under the Epidemic Diseases Act, while the Inspector General of Police will be requested in the Judicial Department to detail a European Inspector of police with the requisite staff for maintaining order and enforcing the regulations.
