While the coast steamer in which I lately proceeded from Calicut to Tuticorin was at Quilon, I took the advantage of the stay of the vessel at the port to land and inspect Tangacherry Point, in view of fixing on a suitable site for the Lighthouse it is intended to place on that Point in accordance with Mr. Ashpita's scheme. I found that ~~that~~ the Point was suffering from erosion, and as nothing has been done to stop the encroachment of the sea on both sides of the Point, I submit that it would be advisable to have its state reported on by an Officer of the Public Works Department in view of ascertaining what steps, if any, should be taken to protect the Point from erosion before the work of erecting a Lighthouse is commenced.

Endorsement thereon ^{was} by the Marine Department No. 234 E
