Plans of ~~the~~ ports

Directing that

the work of enlarging the Admiralty charts
of each port ~~be~~ ^{be} entrusted to the
Survey Dept instead of to P.W. Office.

Jr

12/7/98

Directing that the work of enlarging the admiralty charts of ports in the Madras Presidency be entrusted to the Survey Department instead of to Public Works officers.

GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

Read—again the following paper:—

G.O., No. 992 W., dated 19th April 1898.

—also the following papers:—

Memo. No. 110.

With reference to letter from the Presidency Port Officer read in G.O., No. 992 W., dated 19th April 1898, the Superintendent, Madras Survey, is requested to report if the Survey Department can undertake the preparation of the plans therein referred to and whether there is any objection to the work being transferred to that department.

(Signed) N. E. MARJORIBANKS,
Ag. Under Secretary to Government.
10th May 1898.

From H. O'C. CARDOZO, Esq., C.I.E., Superintendent, Madras Survey, to the Secretary to Government, Revenue Department, dated Madras, 1st June 1898, No. 71/G.

I have the honour to report that plans showing port limits, as requested by the Presidency Port Officer, can be prepared by the District Surveyors under the supervision of the Survey Divisional officers.

Mis. No. 2555, Revenue.

Transferred to the Public Works Department with reference to the office-note from that Department No. 176 D, dated 5th May 1898.

(By order.)

OOTACAMUND,
16th June 1898.

(Signed) N. E. MARJORIBANKS,
Ag. Under Secretary to Government.

From W. C. DEMORGAN, Esq., M.I.C.E., Executive Engineer in charge, I Circle, to the Chief Engineer, Public Works Department, dated Waltair, 3rd June 1898, No. 215 G.L.

I have the honour to request that you will be good enough to inform me what is meant by order No. 992 W., dated 19th April 1898.

2. All Port officers in the circle have applied for large scale surveys within the limits of their ports.

3. There are no surveys in any of the Public Works Department divisions of the circle, from which the enlarged surveys can be prepared.

4. If it is intended that a survey within the limits of each port on which changes of foreshore and anchorage could be marked should be prepared by this department, I must point out that a very large special establishment would be necessary; that there would be great delay in completing the work; and that the results would probably be unsatisfactory. Such a survey is distinctly a marine survey and should be conducted by the Marine Department.

5. Pending your reply, I have informed the Port officers that I am unable to comply with their request.

Memorandum to the Presidency Port Officer, dated 20th June 1898, No. 336 E.

Adverting to G.O., No. 992 W., dated 19th April 1898, the undersigned is directed to inquire the nature of the survey which the Presidency Port Officer requires, i.e., whether a marine or a land survey, or combination of both is to be made. If soundings are to be taken, neither the Public Works nor the Survey Department will, it is thought, be able to undertake the work.

(Signed) W. B. DEWINTON,
Chief Engineer.

From Commander H. A. STREET, R.I.M., Presidency Port Officer, to the Secretary to Government, Marine Department, dated Madras, 23rd June 1898, No. 668/221 G.

With reference to Memorandum of Government, Marine Department, No. 336 E, dated 20th June 1898, I have the honour to acquaint you, for the information of Government, that an enlargement of the admiralty chart of each port is what is wanted.

ORDER—No. 595, Marine, dated 8th July 1898.

With his letter read above, the Presidency Port Officer reports that the plan referred to in his letter recorded with G.O., No. 992 W., dated 19th April 1898, is an enlargement of the admiralty chart of each port. The Superintendent, Madras Survey, reports that the work can be undertaken by his department. It will accordingly be entrusted to that department instead of to Public Works officers.

Letter from the Presidency Port Officer
no ⁶⁶⁸₂₂₁ G. of 23. 6. 98 and Rule
Endowment no 2555 of 16. 6. 98
(Marine C. no 834)

To Under Secy:-

In his letter of 25.3.98
the Presidency Port officer stated
that a large scale map of the
limits of each port was necessary
to enable changes in the foreshore
and the anchorage between such
limits being shown therein and
requested that the Superintending
Engineers of each Maritime Circle
might be authorized to supply Port
officers a plan on a scale 200
feet to an inch. This was
communicated to the Superintending
Engineers for compliance in
G.O. no 992 W of 19.4.98. The
H. M. (the Honble Sir H. Bliss)
having, however, expressed the
opinion that work of the kind
should be entrusted to the
Survey rather than the P.W.
Department, the Supt. Madras
Survey was requested to stg.

in G.O. no 992 W. of 15.4.98.

Such a survey can

whether he could undertake the
reparation of plans such as
are described by the Presidency
Port Officer. The Sup^t. Madras
Survey reported that plans
showing Port limits could
be prepared by the D^t. Surveyors
under the supervision of the
Survey Divisional officers.

2. In the meantime the Super-
intending Engineer, 1st Circle,
points out that there were
no surveys in any of the
P. W. Divisions of the Circle from
which the enlarged surveys
could be prepared; that if it was
intended that a survey within
the limits of each Port on which
changes of fresh shore and anchorage
could be marked should be prepared
it could not be done without
a very large special establish-
ment; that even then there
would be great delay in com-
pleting the work and the work
when completed would not be
satisfactory; and that such
survey was distinctly a
marine

marine survey and should be
conducted by the Marine Dep^t.
Thereupon enquiry was made
of the Presidency Port Officers
as to the nature of the survey
required, i.e. whether a marine
or a land survey or a combination
of both. It was at the same
time pointed out that if something
had to be taken neither the P. W. D.
nor the ~~Marine~~ ^{Survey} Dep^t would be
able to undertake the work. The
Presidency Port officers in reply
stated that what was wanted
was an enlargement of the
Admiralty chart of each Port.
In the draft order of the P. W. D.
it is proposed to entrust the
work to the Madras Survey Dep^t.
3. It is not clear what
exactly is intended, ^{whether it is} ~~is it~~ an
enlargement of an already
existing chart or is it intended
that a chart on a large scale
should be newly prepared.
Of the former it could easily
be done by the Madras Survey
Dep^t. Of the latter it is

not known whether soundings
could not have to be taken for the
separation of the chart. In
this case as pointed out by the
superintending engineer the
work will surely be a marine
survey and cannot be undertaken
by the Madras Survey Dept.
