SANITARY BOARD OFFICE.

PROCEEDINGS OF THE SANITARY BOARD, No. 881
5, DATED 8th Dec 97

Read the following:—

Letter from J. A. Jones Esqr., Mem. Inst. C. E., F. R. S. E., Sanitary Engineer to Government, to the Secretary Sanitary Board, No 1813, dated 26th November 1897:—

I have the honor, in continuation of my No. 1559 of 30th September 1897, to state that there will yet sometime elapse before the Dindigul Water Supply Scheme can come before the Board or Government.

2. A Committee of the Council was appointed to report on the matter and I met that Committee on the 6th of August last and it was then arranged that a survey should be made and a scheme drawn up for procuring a supply from certain wells about $\frac{1}{2}$ mile to the north of the present works.

3. The surveys were complete and scheme being drawn up when an unfavourable analysis of the water was sent by the Chemical Examiner.

4. A reference had again to be made to Dindigul (dated 1st November 1897) and this shewed that contamination was due to manuring and probably to a tannery half a mile away.

5. The Council seems somewhat loath to give up this source of supply unless decidedly objected to by an expert (I presume the Sanitary Commissioner is referred to) but at the same time suggest another source of supply which they also require to be examined by the same expert (Resolution of Council dated 24th November 1897).

6. I have addressed the Sanitary Commissioner on the matter but it will be sometime before his report is received

but

I propose myself to inspect the new proposed source, at week in view to ascertaining its sufficiency.

The Committee seems averse to adding to the length of the tunnel to obtain a further supply as the amount of increase to be obtained is uncertain though the purity of such water is undeniable.

I place these facts before the Board for the information of Government to shew that the matter is having attention and that I have pushed the matter as much as I can.

It is now unlikely that the funds allotted in the Budget for 1897-98, Rs 22500 will be required before 1st. of April.

Resolution.

Communicated to the Secretary to Government, Local and Municipal Department in continuation of Sanitary Board's No. 667, dated CW 3329 dated 22nd September 1897.

(True Extract)
