Proceedings of the Madras Government.

Read the following papers:-

From the President, Municipal Commission, Madras, G.O. No. 230 dated 7th September 1922.

In forwarding the enclosed letter from the Surgeon-General, No. 345, dated 30th August 1922, I have the honour to submit that I fail to see what benefit will be derived by the formation of a committee. We all know that it is most desirable that there should be a Hospital for the accommodation of patients suffering from venereal diseases. We all know that the Municipality has no funds. The question is who is to provide the Hospital. If the Committee and the Government do it, let them let it be decided.

(Enclosure)

Letter from the Surgeon-General to the Government of Madras, No. 345, dated 30th August 1922.

With reference to G.O. No. 1331, dated 11th August 1922, I have the honour to suggest that Government will be pleased to appoint a Committee for the purpose of drawing up a scheme dealing with the classes, caste and area to be accommodated in the isolation hospitals, of which there should be at least two. One in the North and the other in the South of Madras. The Committee should be composed of the President of the Madras Municipality as President, the Senior Medical Officer of the General Hospital, the Sanitary Commissioner and the Consulting Architect as members, with the Health Officer of the Madras Municipality as Secretary and a special clerk. It should be directed to submit a report of its proceedings to the Government by the 15th November 1922 regarding construction and

arrangement
