Civil Works.

READ—the following paper:—

Note by the Chief Engineer, Public Works Department.

In paragraph 3 (a) of G.O., No. 377, Marine, dated 13th May 1898, the Public Works Department was directed to call for estimates for (1) reclamation of the foreshore at Tuticorin to give additional room for the storage of coal, and (2) a ramp for landing timber.

2. I discussed this matter on the 3rd instant at Tuticorin with the Port officer and the Executive Engineer, and we decided that the proposals should wait until Tuticorin's more urgent needs are satisfied. I propose, therefore, to cancel the order for these estimates.

(Signed) W. B. DEWINTON,
Chief Engineer.

17th January 1899.

ORDER—No. 386 W., dated 8th February 1899.

The proposal of the Chief Engineer, Public Works Department, which is concurred in by the Presidency Port Officer, is approved. The preparation of the estimates for the reclamation of the foreshore at Tuticorin and for a ramp for landing timber, called for in G.O., No. 1549 W., dated 21st June 1898, will accordingly be held in abeyance.
