Approving the Plague Commissioner's recommendations as regards the amendment of the
— in use in the mufassal.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

Proceedings of the Plague Commissioner, No. 1081, dated 18th April 1899.

Read—the following letter from the Collector of Salem, dated 18th March 1899, Ref. on No. 50-Reg. :—

I have the honour to point out that in Regulation 17 (i) of the original Mufassal Plague Regulations and on the reverse of the B Form passports, it is stated that a passport holder is bound to present himself for inspection "for the next ten days." This excludes the date on which the passport is issued. In the declaration to be signed by the passport holder in the vernacular, the corresponding translation includes the date of issue. Obviously the intention is that the date of issue should be excluded from the observation period. I would suggest that the vernacular translation be altered to convey this meaning. The difficulty has arisen.

Proceedings—No. 1081, dated 18th April 1899.

The Translators to Government are requested to revise the passport forms so as to make recent amendments clear, and to convey the meaning that the ten days' period mentioned therein shall exclude the day on which the passport is issued. The present translations include that day.

2. The Plague Commissioner takes this opportunity of suggesting to Government the desirability of amending the form. It consists at present of three parts and as each part has to be filled up separately, much time is taken up. If parts A and C are made identical with part B, three copies can be made simultaneously with the aid of carbon paper and much time and scriptory work saved. One copy may be given to the passenger, another sent to the local authority of the place of destination, and the third copy retained by the officer issuing the passport.

3. The existing form further occupies much space by reason of its being printed in diglot. It is suggested that it may be printed in a single language, English forms being used in the case of Europeans and Eurasians and vernacular forms in the case of natives. This proposal, if sanctioned, will result in a considerable saving of paper.

Read—the following letter from the Acting Collector of Trichinopoly, to the Plague Commissioner, dated 24th April 1899, Dis. No. 117 P. :—

With reference to your Proceedings, No. 1081, dated the 18th instant, I have the honour to point out that the declaration in English to be signed by the passport holder published at page 41 of the Madras Plague Regulations and Rules also is defective, in that it does not exclude the date of issue of the passport. I request that the necessary alteration may be made.

Ref. on C. No. 4541, dated 28th April 1899.

Forwarded to Government with the request that the necessary alteration may be made when revising the form with reference to Plague Commissioner's Proceedings No. 1081, dated 18th April 1899.

Passport Form.

Approving the Plague Commissioner's recommendations as regards the amendment of the
— in use in the mufassal.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

Proceedings of the Plague Commissioner, No. 1081, dated 18th April 1899.

Read—the following letter from the Collector of Salem, dated 18th March 1899, Ref. on No. 50-Reg.:—

I have the honour to point out that in Regulation 17 (i) of the original Mafassal Plague Regulations and on the reverse of the B Form passports, it is stated that a passport holder is bound to present himself for inspection "for the next ten days." This excludes the date on which the passport is issued. In the declaration to be signed by the passport holder in the vernacular, the corresponding translation includes the date of issue. Obviously the intention is that the date of issue should be excluded from the observation period. I would suggest that the vernacular translation be altered to convey this meaning. The difficulty has arisen.

Proceedings—No. 1081, dated 18th April 1899.

The Translators to Government are requested to revise the passport forms so as to make recent amendments clear, and to convey the meaning that the ten days' period mentioned therein shall exclude the day on which the passport is issued. The present translations include that day.

2. The Plague Commissioner takes this opportunity of suggesting to Government the desirability of amending the form. It consists at present of three parts and as each part has to be filled up separately, much time is taken up. If parts A and C are made identical with part B, three copies can be made simultaneously with the aid of carbon paper and much time and scriptory work saved. One copy may be given to the passenger, another sent to the local authority of the place of destination, and the third copy retained by the officer issuing the passport.

3. The existing form further occupies much space by reason of its being printed in diglot. It is suggested that it may be printed in a single language, English forms being used in the case of Europeans and Eurasians and vernacular forms in the case of natives. This proposal, if sanctioned, will result in a considerable saving of paper.

Read—the following letter from the Acting Collector of Trichinopoly, to the Plague Commissioner, dated 24th April 1899, Dis. No. 117 P.:—

With reference to your Proceedings, No. 1081, dated the 18th instant, I have the honour to point out that the declaration in English to be signed by the passport holder published at page 41 of the Madras Plague Regulations and Rules also is defective, in that it does not exclude the date of issue of the passport. I request that the necessary alteration may be made.

Ref. on C. No. 4541, dated 28th April 1899.

Forwarded to Government with the request that the necessary alteration may be made when revising the form with reference to Plague Commissioner's Proceedings No. 1081, dated 18th April 1899.
