Telegram dated, the 22nd July 1899.

From - Political Resident, Persian Gulf, Bushire.
To - Foreign Secretary, Simla.

My telegram of 11th July. During second 10 days of July there were 23 deaths in Bushire and suburbs, only one of which was considered suspicious of plague, this occurred on 11th, so that no suspicious deaths have occurred for 10 days clear. As, however, no disinfection has been done, and our doctors had (not?) access to sick, I cannot yet say for certain that port is clear.
