Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 16th June 1857.

No. 34. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 4th June 1857, No. 906.

SIR,

I have the honor to forward, under Clause 2 of Extract from the Minutes of Consultation, No. 696 of the 18th October 1855, the accompanying plan and estimate, for alterations and additions to the School House at Coimbatore.

2. The estimate amounts to Rupees (2,330) two thousand, three hundred and thirty, it provides for the addition of two rooms, one at each end of the present building: these rooms are to be each 40' by 20', and to have terraced roofs; the estimate also provides for the increase of the width of the rear verandah from 7 to 14 feet, and for the erection of a Portico 28 feet by 11½ feet, instead of the present one, which is only 8½ feet by 10½ feet, the roofs of the verandahs are to be taken off, and new sloping terrace roofs are to be added.

3. The plan of improvement is considered by the Director of Public Instruction to be an extremely good one, but he suggests that archways be substituted for the two doorways leading from the centre to the two side rooms, as this alteration can be made without difficulty, I have altered the plan and estimate accordingly.

4. The estimate for which the sanction of Government is requested, amounts to Rupees (2,330) two thousand, three hundred and thirty. The rates upon which it is prepared are moderate and sufficient, and when authorized from the Educational Funds, I conclude that the work will be executed as usual, by the District Engineer.

No. 35. ORDER THEREON, No. 1125; dated 11th June 1857.

Ordered to be referred to the Public Department for consideration.

(Signed) H. FORBES,
Acting Secretary to Government.
