Report B, on an estimate amounting to Rupees (375) three hundred and seventy-five, for altering, and making additions, to the Record room of the Collectors Office, at Calicut.

The above Estimate has been prepared by the District Engineer of Malabar, at the request of the Collector, it provides for the construction of a timber apartment, within the centre room of the Record office, and of timber partitions, dividing the space, between this inner timber apartment, and the side walls of the room, into four divisions, one of these divisions is to be used, as a Book Binders office, and the other as a Printing office.

2. The District Engineer affirms, that the Acting Collector, in a letter dated the 28th March, states that these rooms are absolutely necessary, and that on inspecting them himself, the District Engineer, found that the Government Printing office, was located in a portion of room, railed off to which access was had by the Gomastahs on their passing in and out of the Record office.

3. The rates allowed in the Estimate, being moderate, but sufficient, the Chief Engineer recommends that it be sanctioned for entry, in the Budget for 1858-59 the amount requiring sanction being Rupees (375) three hundred and seventy-five.
