Fort Saint George, Public Works Consultation of 18th August 1857.

No. 52. Read the following Extract from the Minutes of Consultation in the Public Department, dated 8th August 1857, No. 1093.

Read the following Extract from the Minutes of Consultation in the Public Works Department.

Communicating a letter from the Chief Engineer requesting, that before calling upon the District Engineer for an estimate of the work reported as necessary for the Chingleput Dispensary, he may be favored with the views of Government on his letter No. 1328, dated 18th June 1857. } (Here enter 14th July 1857, No. 1355.)

The Government have re-considered the Chief Engineer's letter of the 18th June last, No. 1328, in connection with the suggestions of the Civil and Sessions Judge of Chingleput, for meeting the requirements of the Civil Dispensary at that station, and they are still in favor of the improvements proposed by Mr. Dowdeswell in the first para. of his letter to the Acting Zillah Surgeon of the 6th May, No. 121.

The Government however, agree with the Chief Engineer that the Lepers should be excluded from the back verandah of the building. A separate ward for their accommodation will therefore, as now suggested by Colonel Faber, be constructed in the Hospital itself, if the building will admit of this being done, or, if not, a detached room in the compound. The back verandah need not, in that case, be enclosed, as originally intended, with venetianed framed doors.

The Chief Engineer will, after communication with the Civil Judge on the subject, be so good as to submit, at an early date, an estimate of the work now contemplated.

(True Extract.)
