1W

Fort Saint George, Public Works Consultation of 15th September 1857.

No. 9. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 26th August 1857, No. 3183.

SIR,

With reference to Extract Minutes Consultation No. 1425, of the 24th Ultimo, I have the honor to submit for the consideration, and orders of Government, a plan, with copy of a letter No. 153, of the 4th Instant, from the District Engineer of Bellary, reporting on the site for the Barracks proposed to be erected for the Artillery at that station.

2. If a comprehensive view of the defensive position of Bellary is to be taken, a well digested plan of the arrangements to be adopted will be required, before any decision can become to, respecting the site of the proposed buildings.

3. In any case, it will be desirable to maintain possession of the Fort, and as the breaches in the walls are now being repaired, under the orders conveyed in Extract Minutes Consultation No. 1468, dated 29th July 1857, I am of opinion, that no further precautionary measures are necessary, and that the present question should be disposed of at once by directing the District Engineer to prepare plans and estimates for erecting the Barracks, on the most convenient and healthy site that can be found within the Fort enclosure.

No. 10. ORDER THEREON, No. 1721; dated 9th September 1857.

Ordered to be referred to the Military Department.

(Signed) H. FORBES,
Acting Secretary to Government.
