MADRAS RECORD OFFICE.

Government of Madras.

DEPARTMENT

G.O. No.	Press Mis.
Date	19

Not to be folded or roughly handled

No. 20. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 10th August 1857, No. 2816.

SIR,

I have the honor to forward a recommendation Roll of one Sub Conductor for promotion to Conductor, vice Conductor Robertson remanded to his Corps G. O. G. 1st July 1857, and of two Non-Commissioned Officers of Sappers and Miners employed in the D. P. W., for promotion to the grade of Sub Conductor, the one to replace Sub Conductor W. Elder recommended for promotion vice Robertson, and the other to hold the warrant become vacant by the remand to his Corps of Sub Conductor Olive; and have the honor to request you will do me the favor to obtain the sanction of His Lordship in Council for their promotions to be Gazetted, to take effect respectively from the date of the G. O. G. remanding Conductor Robertson and Sub Conductor Olive to their Corps.

G. O. G. 14th July 1857.

No. 21. Ordered in consequence that the following letter be despatched.

From H. FORBES, Esq., Acting Secretary to the Government of Fort St. George; to Lieut. Colonel W. E. BAKER, Secretary to the Government of India, dated 10th September 1857, No. 1727.

SIR,

Para. 1. In the Notification published at Fort William on the 17th June 1856, declaring "the Regulations applicable to all branches of the Public Works Department in the Lieutenant Governorships, and Local Administrations subordinate to the Government of India," provision is made for the promotion of the Military Classes employed in the department, within certain limits and on certain defined principles. For convenient reference, the Rule referred to is transcribed in the margin.

4. With the view of affording Military promotion to deserving Non Commissioned officers employed in the Department and of supplying a Staff of Warrant Officers for service in the Field with Engineer Park's, the following establishment will be filled up by promotion from Serjeants employed in the Department of Public Works; the individuals so promoted continuing in the Public Works Establishment and performing their Departmental duties, except when required for Field service.

Bengal with its Dependencies.	
Deputy Commissaries	3
Assistant Do.	3
Deputy do. Do.	3
Conductors	15
Sub-Conductors	20

Serjeants of not less than 8 years standing, and not less than 18 years service in the army (including Departmental service,) will be eligible for promotion to Sub-Conductors from which grade well conducted Warrant Officers will rise by seniority as vacancies occur; but until further orders, no Warrant Officer will be promoted to a higher grade till he shall have served two years in the grade below.

2. A question has arisen as to the applicability of the Rule quoted to the Public Works Department of this Presidency and I am directed by the Right Honorable the Governor in Council to submit it for the decision of the Government of India, in connection with the correspondence* that has passed on the subject with the Chief Engineer, copies of which have already found their way to the Supreme Government, in the Proceedings of this Government of the dates noted in the margin.†

3. In his letter of the 9th August 1856, the Chief Engineer, submitting, in reference to the instructions conveyed in your letter of the 17th June 1856, a revised scheme for the permanent Establishment of the Public Works Department for this Presidency, recommended, in advertence to the Bengal Rule, that provision should be made "for the "promotion of deserving Non Commissioned Officers in the Depart- "ment of Public Works, in order to supply a Staff of Warrant Officers for service in the Field;" and calculating the relative strength of the Corps of Engineers in the two Presidencies, he proposed that the complement of the Warrant Establishment in the Department of Public Works

at Madras should be fixed at 27 of all ranks, and that it should be filled up by promotion from the Non Commissioned Officers employed in that Department. In the letter to your address dated 10th October 1856 No. 1842, forwarding a Tabular statement for the revised scale of the Public Works Department for this Presidency, this Government made no allusion to the Chief Engineer's proposal for the promotion of the Military classes.

2 Deputy Commissaries.
2 Assistant do.
2 Deputy Assistant do.
9 Conductors.
12 Sub-Conductors.
27

4. On the receipt of your letter of the 19th December 1856, communicating the objections of the Government of India to parts of the scheme proposed by this Government, the Chief Engineer was again called upon in an order dated 22nd January 1857, to re-consider, and report on the points noticed; and he was at the same time informed, that an early opportunity would be taken of nominating such parts of the Establishment as had been sanctioned in the Despatch of the above date.

5. Pursuant to this intimation, the Government, under date the 27th January last, published a Notification based on that issued at Fort William, in which was specified the strength of the several branches of the permanent establishment, and the rules that would apply to them. It should be noted in this place, that the clause in the Bengal Notification providing promotion for the Military classes was omitted in the Notification for this Presidency, inasmuch as the subject had not then been taken into consideration.

Supplement to the Fort Saint George Gazette, dated 28th January 1857.

6. In replying to the order of the 22nd January above mentioned, the Chief Engineer availed himself of the opportunity afforded by this further reference, to solicit early and particular attention to what he considered an accidental omission on the part of this Government, in not noticing, in their letter to the Government of India dated 10th Ootober 1856 No. 1842, the application contained in his previous letter of the 9th August 1856. His allusion to the subject is to be found in para. 28 of his letter of the 3rd February 1857 No. 10,005, and is in the following words—

"It was in conformity to para. 4 of the G. O. G. G. No. 117 of the 17th June 1857, that I respectfully claimed on behalf of the Corps of Sappers and Miners in the Madras Presidency, the like proportional amount of Warrant promotion that has been so liberally bestowed on the Bengal Army. His Lordship in Council, and His Excellency the Commander in Chief, are fully aware on how disadvantageous a position compared with Bengal and Bombay, the European Non Commissioned Officers of the Madras Sappers and Miners have long been placed, with but a single Warrant Officer at Regimental Head Quarters throughout the whole Corps. If I do not greatly mistake, Deputy Commissaries, Assistant Commissaries, and Deputy Assistant Commissaries, have already been appointed under the G. O. G. G. 17th June 1856; and feeling sure that the Madras Government will vigorously support the just pretensions thus brought forward, I now respectfully renew my application of the 9th August last, and I trust that His Lordship in Council will recommend the Warrant Commissions to bear the same date in the Madras Presidency, that they already do in Bengal."

7. In the letter to the Government of India, dated 2nd April 1857, No. 609, allusion to the Chief Engineer's recommendation was again avoided; but in consequence of the reagitation of the question, *the Government proposed to consider and dispose of it in the Military Department.* This eventually led to a resolution to notify the promotion of a limited number of Non Commissioned Officers who might be considered deserving of Warrants, and on the Chief Engineer submitting a Recommendation Roll, their names were published in a G. O. No. 149 of 1857 as emanating from the Public Works Department, as will be seen by a reference to page 865 of Fort Saint George Gazette of the current year.

8. From the names thus published, the Government of India will observe that—

Seven Serjeants and five Corporals have been promoted to the rank of Sub Conductor... 12
Five Serjeants and four Corporals have been promoted to the rank of Conductor..... 9
One Serjeant and one Corporal have been promoted to the rank of Deputy Assistant Commissary..... 2
Two Serjeants have been promoted to the rank of Assistant Commissary..... 2
and
One Serjeant and one Conductor to the rank of Deputy Commissary..... 2

9. It must be here noticed that in the Chief Engineer's recommendations to which effect was thus given, four of the parties promoted did not at the time belong to the Department of Public Works, viz.

Conductor P. Ryan,	Serjeant I. Gray,
Serjeant H. Kennedy,	Quarter Mr. Serjeant Enright,

Of these four, the two latter have since been admitted on the strength of the Public Works Establishment, the two former continue as heretofore with the Sappers Corps in purely Military appointments.

10. As regards those who did belong to the Public Works establishment at the date of the submission of the Chief Engineer's Recommendation Roll, as no Warrants had yet been given, there were none who could claim the higher grades by virtue of length of service in the lower, and it was therefore that at the commencement all grades were filled up at once the higher ranks being filled by the most deserving men. The men had all done good and prolonged service in the Military Department as well as in Civil Engineering, as will be seen from the accompanying copy of the Chief Engineer's Recommendation* Roll submitted for the information of the Government of India.

* Recommendation Roll of Warrant and Non Commissioned Officers of the Corps of Sappers and Miners for the grades of Deputy Commissary, Assistant Commissary, *Conductors* and Sub Conductors.

11. It now however appears doubtful to the Government whether in their at once granting the Warrants thus recommended by the Chief Engineer, *they may not have gone beyond the intention of the Government of India*, and whether it would not have been more in accordance with the intention of that Government, had the Warrants been restricted in the first instance to the lowest grade, allowing promotion to the higher to follow on the completion of the two years service in the lower grade, to which the letter of the rule confines it.

12. I am now desired to convey the request of His Lordship in Council to be favored with information as to the practice pursued in Bengal and the North West Provinces, with reference to para. 4 of the Notification of the 17th June 1856; and further that you will have the goodness to obtain the decision of the Government of India on the proceeding adopted by this Government as reported in the preceding paragraphs, in order, that if incorrect, the error may at once be rectified by cancelling the promotions notified in the G. O. No. 149 of 1857. The *Supreme Government will no doubt be pleased to consider the services rendered in the Military* Department by the men whose case is now in question, as certified in the Chief Engineer's Recommendation Roll, and will allow those service weight in deciding whether the Warrants can, or cannot be retained.

Lt Colonel
Chief Engineer

Memorandum.

The Notifications of the 17th June 1856, for publication at Fort William, laying down the Regulations applicable to the Public Works Department in the Lieutenant Governorships and local Administrations subordinate to the Government of India, contain a provision, viz. Rule 4th for affording Military promotion to deserving non-Commissioned Officers employed in the Dept. of Public Works. The regulations granted in the Margin, and further promotion in the first instance of Serjeants

of

With the view of affording facilities for promotion to deserving non-Commissioned Officers employed in the Department, rules of supplying the staff of Warrant Officers for service in the Field with Engineer Parties the following Establishments will be filled up by promotion from Serjeants employed in the Department of Public Works, who are eligible to proceed to Field Conting[en]cy on the Public Works Establishment and found performing their Duties satisfactorily, except when required for Field service:—

	Bengal Civil Pub. Department
Deputy Commissariat	3
Assistant Commissariat	3
Deputy Assistant Commissariat	3
Conductor	15
Sub-Conductor	20

Serjeants of not less than 5 Years' Standing, and not less than 18 years' service in the Army Circular for Departmental Service, will be eligible for promotion to Sub Conductor from which grade to Conductor Warrant Officers will rise by Seniority as Vacancies occur; but until further orders, no Warrant Officer will be promoted to a higher grade till he shall have served two years in the grade below.

Enclosure in a letter from the Chief Engineer &c to the Secretary to Govt Public Works Dept

Dated Fort William 1st August 1857
No 3816.
Pay. Pub. 1/57

Recommendation Relative to the Warrant Conductor Establishment of Public Works Department

Recommended for sanction & Conductor, and Sub Conductor Warrant Officers for Public Works Department

[illegible]

bolts in the departmental rank of a certain standing in the Subordinate Service, to the rank of Sub Conductor, and thence after, promotion from that grade to the higher ranks, by seniority as vacancies occur.

2. In his letter of the 6th August, 1856, the Chief Engineer in submitting a revised scheme for the permanent Establishment of the Public Works department for this Presidency, recommended in adverting to the above rule of the Notification, that as part of the Establishment to the extent noted in the margin should be filled up by promotion from the non-Commissioned officers employed in the department. This Government in forwarding the revised Scheme of Establishment of the Department Public Works to the Government of India, made no allusion to the recommendation of the Chief Engineer for the promotion of certain of the Military Clerks to the warrant grades.

2 Deputy Commissaries
2 Assistant do.
2 Deputy Assistant do.
9 Conductors
12 Sub Conductors

3. The reply of the Government of India, contained some exceptions to parts of the scheme forwarded by this Government, and involved a further reference to the Chief Engineer. In answering this communication the Chief Engineer, para 28, noticed, what he considered to be unreasonable animadversions on this part of this Government to advert in their letter to the Government of India to his proposition for a proportioned amount of warrant promotions in the department. He therefore renewed his application and recommended that the warrant Commissions should bear the same date in the Presidency that they did in Bengal.

4. The Chief Engineer's Communication bearing on this portion of the proposition was sent to the Military department for consideration and discussion.

The order emanating from that department

was

was to the following effect, and was communicated to the Chief Engineer thro' the Public Works department.

"Ordered that the required promotion of warrant officers be notified in G.O. as soon as the grades and number shall have been determined upon in the Public Works department and nominations made of the individuals to be promoted."

5. Colonel Forbes furnished a recommendation rolls of warrant and non-commissioned officers of the Corps of Sappers and Miners, for promotion to the higher grades, which on being communicated to the Military department, led to an G. O. notifying the appointments recommended by the Chief Engineer as emanating from the Public Works Department. 14th May 1857 No 290.

6. As the Chief Engineer's recommendations thus notified are to be 22nd May 1857 No 2972.

Sergeants Gray & Enright.

Mil. Com. 1st Dec. 1857 No 20. 30 Dec. 28th " " "

be formed the manner of four persons who did not at the time belong to the Public Works Department, two from Lines have been admitted on the Strength of the Establishment, the remaining two Vizt Conductor Ryan and Sergeant Kennedy, this manner on the Establishment have been allowed by Extract Minute Communication in the Military department to remain until the Sappers are detached from the Department Public Works for which duly with that Corps.

From the Notification of the Government published on the 29th January last, it does not appear to have been intended that the scheme for the Public Works department of this Presidency should contain an provision similar to that in the Bengal scheme. No communication has been made on the Specified point to the Government of India, nor does

have the sanction of that authority been obtained to the increased charges which these promotions will entail. The principle on which the promotions have been made, appears to be somewhat different from that sanctioned by the Royal Notification.

8. The increase of charges in the recent promotions will be purely on Military, and it will be a question for the Military department to consider whether there is sufficient authority for incurring this charge.

Correspondence

* relative to the proposed Military Clerks employed on the Records with the Chief Engineer, Office of Public Works, Accounts, Records &c. in connection with the Government of the Presidency under the Public Works Department.

3. On the letter of the 9th October 1855, the Chief Engineer, submitting in reference to the instructions contained in your letter of the 17th June 1856, on revised scheme for the Government Establishment of the Public Works Dept from

for the Presidency, re-
commenced, in each-
-versed to the Bengal
rule; that provision
should be made for the
"promotion of deserving
"non Commissioned
"Officers in the Depart-
"-ment of Public Works,
"in order to supply a
"staff of warrant
"Officers for service in
"the field; and cal-
-culating on the re-
-tained strength of the
Corps of Engineers
in the two Presidencies,
he proposed that the
complement of the
warrant Establishment
in the Department of
Public Works at Madras
should

para 5.

2 Deputy Commissioners
2 Overseers — do —
2 Deputy Assts do —
9 Conductors
12 Sub Conductors
27

should be fixed at 27
of all ranks, and
that it should be
filled up by promo-
-tion from the non
Commissioned Officers
employed in that
Department. In
the letter to your
address dated 10th October
1836 No. 1842, forwarded
-ing a Tabular State-
-ment for the re-
-tained Establishment of the
Public Works Depart-
-ment for the Pre-
-sidency, the Govern-
-ment made no
allusion to the Chief
Engineer's proposal
for the promotion
of the Subalterns.

Agreed

Copies.

4. On the receipt of your letter of the 19th December 1856, communicating the objections of Mad. Government to parts of the scheme proposed by that Government, the Chief Engineer once again assembled the Committee of Officers who had been convened to report on the points noticed, and he was requested to be furnished at the same time informed, that any opportunity should be taken of communicating direct from the Presidency with the Bengal Government.

Fort St. Geo. Despatch dated 5th

5. Pursuant to this instruction, the Government under date the 21st January last, published a Notification dated on that day at Fort William, in which were specified the strength of the several Companies of the Regiments &c. stationed, and the Rates that would apply to them. Of course it was to be noted in the Notification, that the Calcutta Bengal Notification providing pension for the Military

Military Despatch, which
was omitted in
the Notification for this
Presidency, in connexion
on the subject had
not been taken into
consideration.

6. In reply to
the order of the 22d January
above mentioned, the
Chief Engineer availed
himself of the opportu-
nity afforded by
this further reference,
to solicit early and
particular attention
to which he considered
an accidental omission
on the part of the
Government, in not
noticing, in their letter
to the Government of
India

India dated 10. October
1856 No. 1842, the appli-
cation contained
in his previous letter
of the 9th August 1856.
His allusion to the
subject is to be found
in para 28 of his
letter of the 3d February
1857 No. 10,005, and is
in the following
words:—

"It was in con-
formity to para 4
of the G.O.G.G. No.
117 of the 17th June 1856
that I respectfully
claimed on behalf
of the Corps of Sappers
and Miners in
the Madras Presi-
dency, the like
proportional

proportionate amount of Warrant promotion that have been so Generally bestowed on the Bengal Army. His Lordship in Council, and His Excellency the Commander in Chief, are fully aware on how disadvantageous a position compared with Bengal and Bombay, the European Non Commissioned Officers of the Madras Sappers and Miners have long been placed with but a single Lieutenant Officer each Regimental Head Quarters throughout the whole Corps. If Solo

mon

not greatly mistaken Deputy Commissaries, Assistant Commissaries and Deputy Assistant Commissaries have already been appointed under the G.O. G. G. 17th June 1856, and feeling sure that the Authorities will vigorously support the just reasonable claims now brought forward, I most respectfully renew my application of the 9th August last, and beseech that His Lordship in Council will recommend the Governor General in Council to Grant the same

duty

dated in the Madras
Presidency, that they
already do in Bengal."

7. In the letter
to the Government of
India dated 2nd April
1857, No. 609, allusion
to the Chief Engineer's
recommendation was
again invited, both
in consequence of the
rejection of the propo-
-sal, the Government
proposed to consider
and determine of its
in the Military Dept.
This eventually led
to a resolution to
notify the promotion of
a limited number of Commissioned Officers
who might be consid-
-ered deserving and
of exemplary conduct

on the Chief Engineers
submitting a recom-
-mendation that
their names were
published in
G.O. No. 119 of 1857
as entitling from
the Public Works
Dept., service to be
done by reference
to page 866 of the
Fort St. George Gazette
of the current year.

8. From the names
thus published, the Gov.
of India will observe that
Seven Serjeants & Six Corporals have been
promoted to the rank of Sub Conductor - 13
Five Serjeants & four Corporals have been
promoted to the rank of Conductor - 9.
One Serjeant & One Corporal have
been promoted to the rank of
Deputy Assistant Commissary - 2

Now

Two Sergeants have been promoted
to the rank of Assistant Commissary – 2.
and
One Sergeant and One Conductor to the
rank of Deputy Commissary ——— 2.

9. It appears
to there has been noticed that in
the Office of Engineers re-
-commendations Have
(to which effect was given)
given, four of the
Parties promoted did not rank
at the time belong to
the Department of
Public Works. viz.
Conductor D. Ryan,
Sergeant H. Kennedy,
Sergeant A. Gray,
Quarter Mr. Sergt Enright.
Of these four,
the two Civilian Heads
have been continued
in the strength of the
Office

Public Works Establish-
-ment, the two former
continue as heretofore
with the Inspectors Corps
and merely Subsidiary ap-
-pointments.

It was resolved that
as this did belong to the
Public Works establish-
-ment at the close of
the Recommendation of the
Chief Engineers recom-
-mendations paid no
regard to rank yet
been given there were
grounds for the selection
the higher grades by
virtue of length of
service which have,
and it was therefore
that, at the commencement
of each, all promotions
filled up at once, the
highest rank to being
filled

filled by the most deserving) need- The
rules had all done
good and prolonged
services in the Military
Department (as well as
in Civil Engineering)
as will be seen from
the accompanying copy
of the Chief Engineers
recommendation, to all
submitted for the infor-
mation of the Govern-
ment of India.

If, even however appears
desirable to the Govern-
ment of India, in lieu
of any thing being the
alterations recommended
by the Chief
Engineer, they may wish
to have some beyond the
retention of the Govern-
ment of India, even
after the

* Recommendation to all Officers
on account of Non Commissioned
Officers of the Corps of Sappers
and Miners for the grades
of Lt. Commissary, Assistt.
Commissary, Collectors
and Asst Collectors -

were there proved such
have been more in ac-
cordance with the
principle of that Govt.
had the precaution been
practised in the first
instance to the lowest
grade, allowing promo-
