Fort Saint George, Public Works Consultation of 15th September 1857.

No. 30. Read the following letter from Colonel W. E. BAKER, Secretary to the Government of India; to H. FORBES, Esq., Acting Secretary to the Government of Fort Saint George, dated Fort William, the 7th August 1857, No. 3898.

SIR,

I am directed to acknowledge the receipt of your communications No. 1439 of the 25th Ultimo, and No. 1473 of the 30th Idem, and to reply as follows:—

2nd. The Right Hon'ble the Governor General in Council has observed with much satisfaction the heartiness and promptitude with which the Right Hon'ble the Governor in Council of Madras has met the wishes of the Government of India for the reduction of expenditure in the Public Works Department. From the 1st Instant Establishment, the aggregate cost of which amounts to the sum of Company's Rupees two lacs and ninety-one thousand per annum has been dispensed with, leaving a further reduction of but Company's Rupees fifty-three thousand which would be required to bring up the saving to $\frac{1}{2}$ the previous expenditure, the limit specified.

3rd. In regard to the 4th para. of the letter No. 1439, I am to observe that the completion to a state of efficiency of *new* Military Roads whether in progress or not yet commenced cannot, in most instances, be an *immediate* result of expenditure, for stopping which the necessity is immediate and pressing: and it is for this reason, that no exception was made in favor of such Roads. It was however fully intended that roads already formed should be maintained, but should there be any individual cases of the former class requiring special exemption, the Right Hon'ble the Governor General in Council will be happy to consider them.

4th. To complete the reduction of the expenditure on Public Works, the Chief Engineer has prepared a supplementary list of the Establishment that he proposes to dispense with, which, if carried out, would effect a saving rather in excess of the proportion laid down and, in submitting it, has represented to the Government of Madras, that, if enforced, the Department will be wholly crippled for even the ordinary and absolutely necessary repairs, (for the execution of which, he doubts its ability, as already reduced,) and has expressed his apprehensions that the revenues which are (in Madras especially) so largely dependent on the efficiency of Public Works, will suffer to a far greater extent than can be compensated for by any reduction of Establishment.

5th. The Government of Fort Saint George has endorsed the opinion of its Chief Engineer, and in your No. 1473 has given so lucid an exposition of the ill effects, both fiscally and politically, which are likely to result from any further reduction, that the Right Hon'ble the Governor General in Council is not disposed to insist upon it, preferring to leave it to the discretion of the Government of Madras which has so fully appreciated the urgent and deplorable necessity for the restriction which has been imposed.

6th. In limiting the expenditure on repairs to the lowest possible amount consistent with the security of the various works or buildings, it was not intended to prevent the execution of such repairs as might be necessary for their maintenance in a condition of complete efficiency, and I am therefore instructed to state that the clearances of Irrigation Chamels and repairs having a similar effect, should most certainly be proceeded with, so that if there be no increase, there may not at least be any falling off from past years in the aid afforded by irrigation works maintaining the general resources of the Madras Presidency.

No. 31. ORDER THEREON, No. 1732; dated 10th September 1857.

Ordered to be communicated to the Chief Engineer with reference to his Proceedings of 29th July 1857, No. 2506. Under the permission given by the Government of India, the Government will not insist upon any further reduction in the Public Works Establishment. The Government observe that provision has already been made for repairs to the existing works, and on fresh orders appear necessary on that subject.

(Signed) H. FORBES,
Acting Secretary to Government.

No. 3898.

From, Colonel W. C. Baker,
Secretary to the Govt. of India.
To, H. Forbes Esquire,
Acting Secretary to Government
of Fort Saint George.
Dated 26th August 1857.

Public Works Dept.
Public

Sir,

I am directed to acknowledge
the receipt of your communications No. 1439
of the 25th Ultimo and No. 1473 of 5th August
and to reply as follows:—

2nd The Right Honble the Govern-
General in Council has observed with
much satisfaction the heartiness and
promptitude with which the Right
Honble the Governor in Council of Madras
has met the wishes of the Government
of India for the reduction of expenditure
in the Public Works Department. From
the 1st Instant Establishment, the
aggregate cost of which amounts to the
sum of Company's Rupees five lakhs and
twenty one thousand per annum has been
discontinued with, leaving a further reduction
of

Rs. 291,000

of that Company's Rupees Fifty three thousand Rs 53,000 which would be required to bring up the saving to $\frac{1}{4}$ the previous expenditure, the limit specified.

3. In regard to the 11th para. of the letter No 1139, I am to observe that the completion to a state of efficiency of new Military Roads whether in progress or not yet commenced cannot, in most instances, be an immediate result of expenditure, for stopping which the necessity is immediate and pressing. And it is for this reason, that no exception was made in favor of such Roads. It was however fully intended that roads already found should be maintained, but should there be any individual cases of the former class requiring special exemption, the Right Honble the Governor General in Council will be happy to consider them.

4. To complete the reduction of the expenditure on public Works, the Chief Engineer has prepared a supplementary list of the Establishment that he proposes to dispense with, which, if carried out, would effect a saving rather in excess of the proportion laid down and, in submitting it

it, has represented to the Government of Madras, that, if enforced, the Department will be wholly crippled for even the ordinary and absolutely necessary repairs, (for the execution of which, he doubts its ability, as already reduced), and has expressed his apprehensions that the revenues which are (in Madras especially) so largely dependant on the efficiency of public Works, will suffer to a far greater extent than can be compensated for by any reduction of Establishment.

5. The Government of Fort Saint George has endorsed the opinion of its Chief Engineer, and in your No 1173 has given to Lord an exposition of the ill effects, both fiscally and politically, which are likely to result from any further reduction, that the Right Honble the Governor General in Council is not disposed to insist upon it, preferring to leave it to the discretion of the Government of Madras which has so fully appreciated the urgent and deplorable necessity for the restriction which has been imposed.

6. In limiting the Expenditure on repairs to the lowest possible amount

Conditent

consistent with the security of the various
works or buildings, it was not intended
to prevent the execution of such repairs
as might be necessary for their maintenance
in a condition of complete efficiency, and
I am therefore instructed to state that
the clearances of Irrigation Channels
and repairs having a similar effect, should
most certainly be proceeded with, so that
if there be no increase, there may not
at least be any falling off from past
years in the aid afforded by irrigation
works in maintaining the general resources
of the Madras Presidency.

I have the honor to be,
Sir,

Your Most Obedient Servant

Lord William

The 7th August 1857

P. W. M. Clerk
