No. 55. ORDER THEREON, No. 1783, dated 19th September 1857.

On the 18th June last, No. 1309, the Chief Engineer submitted an estimate amounting to Rupees 12,280 for building a Sea Custom House at Cocanada in the District of Rajahmundry, but before sanctioning the estimate, the Government, in Extract Minutes of Consultation 10th July 1857, called for explanation as to the cause of the great difference between it and that sanctioned on the 10th July 1854. In his letter of the 4th August, the Chief Engineer attributes the cause of the excess to the extensive alterations made in the design of the building; which now includes accommodation for the Master Attendant's office. This portion of the project having received the approval of Government in the Marine Extract Minutes of Consultation recorded above, the Right Honorable the Governor in Council authorizes the Chief Engineer to include in the Budget of 1858-59, the sum of Rupees 11,803 for the Sea Custom House at Coconada, after deducting Rupees 477 from the present estimate of Rupees 12,280, being the amount expended from the original estimate in the preparation of materials. Under this sanction the estimate for the same building sanctioned on the 10th July 1854, will be cancelled.
