Dated 24—9—1857

Not to be folded or roughly handled

No. 21. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 14th September 1857, No. 3683.

SIR,

With reference to Extract Minutes of Consultation No. 905, dated 12th May 1857, I have the honor to forward, for submission to Government, a plan and estimate of a Civil Dispensary proposed to be built at Polachee in Coimbatore, by private subscription, at a cost of Rupees (5,410) five thousand, four hundred and ten, including a separate Ward which the Civil Surgeon considers may be dispensed with, but which seems desirable as a hospital for lepers or infectious cases.

2. The plan appears very suitable, the male and female Wards forming distinct wings separated from each other by the main building in which the Reception Hall, Surgery, and Stores are placed.

3. The dimensions of the rooms are very good, and the ventilation is ample.

4. The depth of foundation is only 3 feet, which, in easy soil, is scarcely sufficient for the height of the main walls, but this can be increased to 4 feet without any material increase of cost.

5. The building altogether appears very suitable to its intended purpose, and as the funds are available, the work may be proceeded with at once.

6. The rates of the estimate appear moderate and sufficient.

No. 22. ORDER THEREON, No. 1819; dated 24th September 1857.

Ordered to be referred to the Public Department with reference to Extract Minutes of Consultation in that Department dated 28th April 1857, No. 533.

(Signed) H. FORBES,
Acting Secretary to Government.
