G.O. No. 1852 Press Mis.

2324

Dated 24-9-1857

Not to be folded or roughly handled

No. 23. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 16th September 1857, No. 3756.

SIR,

Correspondence between the Collector and District Engineer of Cuddapah.

I regret much being under the necessity of laying before Government, a further correspondence that has passed between the Collector and District Engineer of Cuddapah.

2. Mr. Murray in his letter No. 90 dated 24th Ultimo, denies the truth of an assertion made by Lieutenant Hemery in his general observations for July last, to the effect, that a complaint advanced by one of his Sub Overseers of the interference of the Acting Tahsildar and Sheristadar of Camalapoor, had been brought to the notice of the Collector.

3. In Extract from Proceedings No. 3286, dated 29th Ultimo, Lieutenant Hemery was called upon for a report in reply to the Collector's Statement, and that Officer in his letter No. 709, of the 1st Instant, quotes passages from letters addressed to him by the Collector on the 26th Ultimo and 4th instant respectively, showing clearly that the complaint had been received.

4. Lieutenant Hemery again refers to the subject of the ill treatment of the Wudders, in the Cuddree Talook, but that question having already been disposed of by Government in Extract Minutes Consultation No. 1676, dated 3rd September 1857, calls for no further remark.

5. That Mr. Murray should bring forward such unfounded charges is to be regretted, but I have no alternative as the Head of the Department, than to lay before Government Lieutenant Hemery's very proper and temperate appeal, and to request that I may be honored with orders on the same.

No. 24. ORDER THEREON, No. 1820; dated 24th September 1857.

Before passing any orders on this reference, the Government request that the Chief Engineer will obtain and submit more precise information as to the point in dispute between the District Engineer and the Collector of Cuddapah.

2. The Government remark that, while the Collector in the 4th para. of his letter of the 24th August, denies having received any intimation from the District Engineer regarding orders said to have been given by the Talook Officers *to the Wudders*, the District Engineer, in refutation of this denial, quotes from letters from the Collector which refer to the non supply of carts *by the Reddies*.

3. The two classes of Wudders or tank diggers, and Reddies or heads of villages, are so distinct, that it appears possible that Lieutenant Hemery and Mr. Murray are each referring to a different matter.

(Signed) H. FORBES,
Acting Secretary to Government.

Engineer of Cuddapah

1825

C 22 Oct 1824

Collector of Cuddalapah

The Government remark made, whilst the Collector in the 1st Case of his Letter of the 24th ultimo, declining received any explanation from the District Superintendent regarding evidence said to have been given by the Talook Officers to the Commissioner, the Superintendent appointed to make enquiries, should refer to the same enquiry of the Talook by the Peadahs

[illegible] the two Chief Talook Officers or Heads of Villages, are so distinct, that it appears possible that Lieutenant Henry and Mr Murray are each referring to a different matter.
