No. 45. Read the following Extract from the Proceedings of the Chief Engineer, dated 10th September 1857, No. 3603.

Read the following letter from Lieutenant R. F. OAKES, District Engineer of Tinnevelly ; to Colonel C. E. FABER, Chief Engineer, dated Trichendoor, 29th August 1857, No. 111.

SIR,

In accordance with the request contained in Circular No. 77, dated 27th Ultimo, from the Central office, I have the honor to forward a list of the works which it is deemed necessary to carry on in this District in order to ensure the existing cultivation and thus to prevent the Revenue from falling off during the present year.

2. The amounts required for Roads are for the most part for the cost of materials already provided by contractors for which payments have not yet been made, and for placing the road tunnels and bridges which are in progress in such a state as shall prevent them from liability to destruction until the restriction on Public Works shall have been removed.

3. In addition to the works mentioned in the enclosed list, certain repairs to the Roads in the District are being executed from the Discretionary allowance of Rupees 5000. The channel for the Drainage of the Tharavoy Lake is being excavated from the 700 Rupees subscribed by the Trustee of the Trichendoor Pagoda. The Beach road at Tuticorin will be carried out so far as the 1,500 subscribed by the merchants and inhabitants of that Town will admit of. And the Chuttrum at Allaghyapaudeapoorum, will be completed at a cost of about 180 Rupees from Chuttrum funds.

Resolved to submit copy of the foregoing letter, No. 111, dated 29th August 1857, from the District Engineer of Tinnevelly for the information of Government, with the Chief Engineer's recommendation that the expenditure proposed by Lieutenant Oakes on certain works in that District amounting to Rupees (6,611-6-3) six thousand, six hundred and fourteen, annas six and pice three, be sanctioned.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

No. 46. ORDER THEREON, No. 1832; dated 26th September 1857.

The Chief Engineer submits a list of works which the District Engineer of Tinnevelly proposes to proceed with, in order to avoid loss to the Revenue, and to save from destruction certain unfinished bridges which may fall if not completed. The Government observe that several of the works entered in the list are mere repairs, for which all necessary provision has been already made, and to authorize which the Chief Engineer possesses sufficient authority. They resolve therefore that the list be returned to the Central office, and that the Chief Engineer be requested to re-submit it, after it shall have been properly examined in his office.

(Signed) H. FORBES,
Acting Secretary to Government.

No 3603.

Extract from the Proceedings of the Chief Engineer
in the Department of Public Works
Under date the 10th September 1857

Read the following letter

From Colonel C. Pasley
Chatham 8th September 1857

Sir,

In accordance with the request contained in Circular 1577, dated 27th ultimo, from the Central Office, I have the honor to forward a list of the works which it is deemed necessary to carry on in this Division in order to secure the existing collection and thus to prevent the necessity for completing any of them during the present year.

2. The amounts required for these works are for the most part for the Cost of materials already provided by Contractors for which payments have not yet been made, and for the Pay and Allowances of Artificers which are in progress. Such a state as shall prevent them from receiving the destruction until the Estimates in which they have been included

3

In addition to the works mentioned
in the enclosed Estimate against the
Roads in the District are daily executed
from the Exercise and Pleasure and
Expenses of the Chaise for the Surveyor
of the Highways who is daily employed
from the 1st of April to the 1st of
October in Surveying all the Roads
& Parishes within the District and
to forward the Returns and Certificates
Required by Act of Parliament; Six
Hundred and fourteen Miles Eight
Hundred and [illegible]

fall if not completed.
The Government ob-
serve that several of
the Works entered in
the Lists are mere re-
pairs, for which all
necessary provisions
have been already made,
and to authorize which
the Chief Engineer possesses
sufficient authority.
They therefore recommend
that the Lists be returned
to the Central Office,
and that the Chief
Engineer be requested
to resubmit it, after
it shall have been
properly
examined in his Office.
