No. 22. Read the following Extract from the Proceedings of the Chief Engineer, dated 24th September 1857, No. 3979.

Read the following letter from Lieutenant E. HEMERY, District Engineer of Cuddapah; to Colonel C. E. FABER, Chief Engineer, dated 22nd March 1857, No. 1123.

SIR,

In December last, foreseeing that a larger quantity than usual of Stationery and particularly blank books, would be required by the Officers and Overseers, on my assuming executive charge of the Marahmut in this District, I sent to Madras for a supply, intending to include the cost in my monthly Contingent bills, until the whole amount was repaid, but the Civil Auditor has refused to pass any portion of the amount until the sanction of Government has been obtained. I therefore have the honor to forward a bill of the cost of the Stationery and to request you will be so good as to solicit the sanction of Government for the disbursement of the amount.

The annual supply of Stationery received last month from the Stationery depôt will not by any means meet the demands from the members of the D. P. W. in this District.

Captain Meyer Assistant Engineer in returning with his countersignature a memo. of Stationery forwarded to him last week writes as follows, "the present supply is not sufficient for my own office much less for the Overseers under my orders" and the other executive Officers complain in like manner of the insufficient supply sent to them.

The introduction of the new system of accounts necessitates the opening of several new books and the correspondence in my Office on the subject of pay alone consumes a very large amount of paper, I therefore trust that taking these circumstances into consideration you will be so good as to obtain the sanction of Government for the amount of the accompanying bill.

Resolved to forward for the information of Government a copy of the foregoing communication together with the Contingent bill for Rupees 153-12 one hundred and fifty-three, and annas twelve, and the sanction of Government be solicited for the amount.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

No. 23. ORDER THEREON, No. 1937; dated 15th October 1857.

The Right Honorable the Governor in Council sanctions the Contingent Bill for stationery purchased by the District Engineer of Cuddapah, submitted with the foregoing Proceedings, amounting to Rupees (153-12) one hundred and fifty-three and annas twelve.

2. The Government observe that the District Engineer ought to have indented for the above articles on the Superintendent of Stationery. The Chief Engineer will be requested to instruct Lieutenant Hemery not to incur for the future charges for articles which may be obtained from the Stationery Office.

(Signed) H. FORBES,
Acting Secretary to Government.
