2. Captain Ritherdon reports 1 tunnel washed away and 2 tunnels injured on Trunk road No. 6 between Nellore and the Cundlairoo, 21 miles south of Nellore. Many breaches occurred in the embankments and an estimate for the repair of the road in this range is under preparation and together with one for the southern portion of the road will shortly be forwarded.

3. The Kistnapatam road has suffered very severely. The embankments have been washed away, by the bursting of tanks, at a very great many places between the 4th and 16th miles, and 16 tunnels have either been destroyed or so much injured that they will have to be entirely re-built. An estimate for this road will be framed as soon as the irrigation works which at present absorb the whole time of the Department are repaired, as far as can be done for this year's cultivation.

Resolved to forward for the information of Government a copy of the foregoing letter from the District Engineer Nellore, submitting a further list of tanks breached in the Nellore range.
