Fort Saint George, Public Works Consultation of 6th February 1857.

No. 110. Read the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, D. P. W., dated 20th January 1857, No. 9615.

SIR,

I have the honor to submit for the information of the Right Honorable the Governor in Council, the accompanying letter No. 377, of the 9th Instant, received from Lieutenant Sankey Superintendent of the East Coast Canal, in which that Officer enters Rupees (11,000) eleven thousand, as the outlay likely to be required for the repairs of 110 miles of the Canal in the ensuing Official year, at the rate of Rupees 100, per mile, which provides for Superintendence, clearing out deposit, repairs to masonry works and sundries. The rate entered appears moderate, and accordingly, I propose to enter the same in List No. 3 of the Budget for the ensuing year.

2. The sum now asked for by Lieutenant Sankey is to supercede the existing grants viz. Rupees 3,000, allowed for the Canal between Madras and Pullicat, in the Budget of 1856-57, an average of three years expenditure, and Rupees 2,400 allowed in Extract Minutes of Consultation No. 2087, dated 10th November 1856, for a portion of the Northern Canal, thus entailing an additional expence of Rupees 5,600 for 1857-58.

No. 111. ORDER THEREON, No. 269; dated 5th February 1857.

The Right Honorable the Governor in Council authorizes the entry in the Government Office in Statement No. 3 to accompany the Budget of 1857-58 of the sum of Rupees (11,000) eleven thousand, being the probable amount required for repairs to 110 miles of the East Coast Canal in the ensuing official year. This sum will be in supersession of all existing grants.

(Signed) H. FORBES,
Acting Secretary to Government.
