Fort Saint George, Public Works Consultation of 6th February 1857.

No. 137. Read the following Extract from the Proceedings of the Chief Engineer, dated 23rd January 1857, No. 9692.

Read the following letter from Captain G. C. COLLYER, Superintending Engineer, Central Circle; to Colonel C. E. FABER, Chief Engineer, dated Bellary, 12th January 1857, No. 3.

SIR,

I have the honor to report, that I arrived in Bellary upon the 8th Instant from Streedurry guttah, from which place I addressed you on the 7th reporting upon the Yaparal and Mulkapore projects.

2. At Bomanhully, I came upon the road from the Mysore frontier to Bellary, via Cum-badoor, Calandroog, and Yaparal, one of the lines constructed during the famine of 1852-53, and for the completion of which, an estimate amounting to Rupees 36,000 was forwarded by the District Engineer in his letter dated 27th November last No. 382, and which I hope may be sanctioned, for at present the road is useless.

3. At Bomanhully, two considerable reservoirs might be constructed across two Valleys, whose feeders rise in the Minchary range of hills, it is perhaps possible to supply them, as well from the Chinna Huggry, but this requires investigation.

4. Mr. Fisher and myself have been laid up with fever. Mr. Fisher has had a rather severe attack, but we are much better, and hope to be able to proceed with outdoor work in a few days.

Resolved, that a copy of the Superintending Engineer's Central Circle of P. W. periodical Report, of the 12th January 1857, be forwarded for the information of Government.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

No. 138. ORDER THEREON, No. 281; dated 6th February 1857.

Ordered that the foregoing Extract be recorded.

(Signed) H. FORBES,
Acting Secretary to Government.

N. W. P.

Extract from the Proceedings of the Chief Engineer
in the Department of Public Works,

Under date the 23rd January 1857.

Read the following

N^o 3.

Bellary 13th January 1856.

From

Captain L. S. Collyer.

Superintending Engineer.

Central Circle.

To

Colonel C. E. Faber.

Chief Engineer.

in the D. P. W.

Sir,

I have the honor to report, that I arrived
in Bellary upon the 8th Instant from Srirangapatna,
from which place I addressed you on the
7th, reporting upon the Gopur and
Mulkapoor projects.

2 At Bommanahally, I came upon the
road from the Mysore frontier to Bellary, via
Lumbadoor, Calachroog, and Gopur, one of
the lines constructed during the famine of
1852-53, and for the completion of which, an estimate
amounting to Rupees 36000 was forwarded by
the District Engineer in his letter dated

27th

3. A boundary line of 1882 and which I hope may
be maintained, for it protects the road-walker.

4. A boundary line, for some considerable
distance might be constructed across the valley,
whose peaks are in the primary range of
hills. It is perhaps too little to supply them, as
well from the Chinese supply, but this requires
investigation.

4. Mr Fisher and myself have been
laid up with fever. Mr Fisher has had a
rather severe attack, but we are much better,
and hope to be able to proceed with outdoor
work in a few days.

I have &c
J. B. & Co. Captains
Supr Engrs Central Circle

I Resolved, that a copy of the
Superintending Engineer's Central Circle of P.W.
periodical Report, of the 12th January 1887, be
forwarded for the information of Government.

Wm. L. L. Colonel.
Chief Engineer.

 Dear Mr. Brewster
 I have the pleasure to acknowledge
 the receipt of your letter of the 27th inst.
 and in reply to inform you that the
 same has been forwarded to the
 proper authorities for their consideration.
 I am, Sir, very respectfully,
 Yours,
 J. B. Brewster
