18/2/57

Fort Saint George, Public Works Consultation of 17th February 1857.

No. 45. Read the following Extract from the Proceedings of the Acting Superintending Engineer Northern Circle in charge of the Central Office, dated 7th February 1857, No. 10120.

Read the following letter from Lieutenant E. HEMERY, District Engineer of Cuddapah; to Colonel C. E. FABER, Chief Engineer, dated Camp Cumbum, 26th January 1857, No. 872.

SIR,

With reference to para. 2, Extract No. 76, from Minutes of Consultation under date the 12th January 1857, I beg to remark that the set of the current of the Pennair is directly against its left bank near the village of Cunnapurtee, and as the proposed groins will be 35 yards in length, whilst the breadth of the river at that point is nearly a mile, I am not of opinion that the construction of these works will in any way cause the river to encroach on the opposite or right bank, so as to necessitate the adoption of preventive measures on that side also.

Resolved with reference to para. 2, of Extract Minutes Consultation No. 76, dated 12th to forward to Government copy of the foregoing letter No. 872, dated 26th Ultimo, from the District Engineer of Cuddapah, stating that the groins to be constructed on the left bank of the river Pennair, will not necessitate the adoption of measures to prevent the set of the stream against the opposite, or right bank, an opinion in which the Acting Superintending Engineer Northern Circle, owing to the excessive breadth of the river near the village of Cunnapurtee, fully concurs.

(Signed) C. C. JOHNSTON, Captain,
*Acting Superintending Engineer Northern Circle
in charge of the Central Office of Public Works.*

No. 46. ORDER THEREON, No. 319; dated 17th February 1857.

Ordered that the foregoing Extract be recorded.

(Signed) H. FORBES,
Acting Secretary to Government.

N^o 10120

Extract from the Proceedings of the Chief Engineers
in the Department of Public Works, Fort Saint George
Under date the 7th February 1857.
Read the following

N^o 872

1856/57

From, Lieutenant E. Hemery,
District Engineer of Cuddalore.

To, Colonel G. E. Faber, Chief Engineer D. O. W.

Sir, With reference to Para 2 Extract N^o 76 from Minutes of
consultation under date the 12th January 1857. I beg to remark that the
set of the current of the Pennair is directly against its left bank
near the village of Annampuram, and as the proposed groins will be
35 yards in length, whilst the breadth of the river at that point
is nearly a mile, I am not of opinion that the construction of
these works will in any way cause the river to encroach on the
opposite or right banks, so as to necessitate the adoption of preventive
measures on that side also.

I have &c.

Chief Engineer's Office,
Cuddalore,
26th January 1857.

Signed E. Hemery, Lieut.
District Engineer of Cuddalore.

Resolved with reference to Para 2 of Extract

Min: Cons. N^o 76, dated 12th 1/57 to forward to Government

Copy

copy of the foregoing letter No. 872, dated 26th Ultimo, from the District
Engineer of Buddapah, stating that the groins to be constructed on
the left bank of the River Pennaur, will not necessitate the adoption
of measures to prevent the set of the stream against the opposite, or
right bank, and further, in which the Acting Superintending Engineer
is relieving to the expense of the work near the village of
Bannapuri, fully proved.
