MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.
Cons. 17-3-57

G.O. No. 488	Press Mis.—
Dated 17-3-1857	

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 17th March 1857.

Read the following papers.

No. 68. Extract from the Proceedings of the Chief Engineer, D. P. W., dated 7th March 1857, No. 10801.

Read the following letter from the Civil Engineer Malabar.

Reports progress of the Chetwye Dam, and suggests the employment of Lieutenant Tennant as Executive officer for the work and for the Sourthern range in Malabar. (Here enter 28th February 1857, No. 927.)

Resolved, to submit the foregoing correspondence for the information and the orders of the Government with the respectful renewal of the Chief Engineer's previously expressed opinion (respecting Major Selby's professional conduct in Malabar) which has been over-ruled in Extract Minutes Consultation, No. 383 of the 20th February 1857, on a paper which Colonel Faber has not had an opportunity to peruse.

2. Resolved also, to solicit the early orders of Government upon the proposed distribution and equalization of the District Departments of Public Works contained in the Chief Engineer's letter No. 10005 of the 3rd February last, as Colonel Faber has not felt at liberty to give effect to the projected arrangements which he considers to be greatly required, without the previous approval of Government.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

No. 69. Extract from the Proceedings of the Chief Engineer, D. P. W., dated 11th March 1857, No. 10845.

Read the following letter from the Civil Engineer Malabar.

Re-iterates recommendation to employ Lieutenant Tennant in Superintending the Chetwye Dam for reasons given. (Here enter 3rd March 1857, No. 933.)

Resolved, to forward to Government the foregoing letter, in original, No. 933, dated the 3rd March 1857, in continuation of the Chief Engineers Proceedings of the 7th March 1857, No. 10801.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

No. 70. Telegraph Message from the Collector of Malabar, to the Chief Engineer, D. P. W., dated Calicut, 12th March 1857.

Lieutenant Tennant is here. With reference to Captain Ouchterlony's application for his services, shall he remain or proceed to join, at Kamptee, his Regiment.

No. 71. ORDER THEREON, No. 488; dated 17th March 1857.

In his proceedings above recorded, the Chief Engineer submits application from the District Engineer of Malabar, that Lieutenant Tennant should be appointed to the charge of the work at the Chetwye dam, and in the Telegraphic Message from the Collector of Malabar submitted by the Chief Engineer on the 13th Instant, the Government learn that Lieutenant Tennant is waiting at Calicut for instructions before proceeding to join his Regiment on the expiration of his leave.

2. The Chief Engineer does not inform the Government how he proposes that Lieutenant Tennant shall be paid; it has been ascertained in the Government office that there is no provision for Superintendence in the estimate for the dam, and Colonel Faber must be fully aware that now that the executive of the Public Works Department, has been fully organized and sanctioned, the Government have it not in their power to make any increase of establishment, and they must positively prohibit such applications in future.

Fort Saint George, Public Works Consultation of 17th March 1857.

3. It is observed that thirty-two Officers and Subordinates have been allotted to the Malabar District, and the Government are of opinion that it is the duty of the District Engineer to make such a distribution of them as shall ensure the effectual supervision of the progress of all Public Works, and that he should not be encouraged by the Chief Engineer to expect extra aid, unprovided for in the estimates, for works which were known to be in progress when the fixed establishment was given.

4. The Chief Engineer's letter of the 3rd of February will be replied to separately.

(Signed) H. FORBES,

Acting Secretary to Government.

C. from the Pr. of Cons. under date the 17th March 1857
Read the following Papers.

C. from the Pri. of the
Chief Engr.

Here enter 7 & 11 March 57.
No 10801 & 10805.

Ed. Mss. from the Pri. of Malabar
to the Chief Engr.

1 No 12 March 57.

At
The Right Hon. Secy
properly note - that
it is not correct
to suppose -

~~in the above~~
In his proceedings
above recorded the
C. Engr. submits
application from
the District Engr of
Malabar Dist.

It is very unfortunate
that - for he is now
in the great pain & he
himself as an Engr in England
unfortunately - on his return
he had not lived two years
with his Dept. & he has not done
so even now. but the Govt has
kindly recommended that his
opportunity should be given - I
fear, however, that there is
not time in the present
moment. It

Laccase should
be appointed to the
charge of the work
at the Chebore Dam,
and in the tele-
graphs were all
from the collector
of Malabar sub.
mitted to the C. Engr.

M.L.M.

on the 13th inst. the
first leave that
Mr. Leacock is
taking at
present for
instruction be-
fore proceeding
to join his regi-
ment on the
expiration of
his leave -

The Cf. Exec. does
not inform the
Sut. as to how
those that he
cannot place
he paid - it has
been

attained in
 the first place that
 there is no power
 no government
 dependence on the
 outside of the
 nation and that
 labor must be
 fully aware that
 now that the ex-
 ecutive of the
 P. W. D. has been
 fully organized
 & accomplished
 the first stage it
 is in being
 power to be
 - complete

to make any in.

creation of establish.

present, the Govt must ^{be prepared to} prohibit
such applications in future

It is desired that

Thirty-two Officers &

Subordinates have

been allotted to the

Malabar District,

and the first one of

the District is

the duty of the Dis-

trict Engineer to

make such a distri-

bution of them as

shall ensure the effec-

tual supervision

of all the works

of

all public works,

and that he should

not be recommended

by the Ch. Engr. to

expect extra aid,

unprovided for in

the estimates, for

work which will be

known to be in

progress even the

fixed establish-

-ment on given.

The Ch. Engr. letter

of the 3rd of Feb. will

be replied to

separately

Read the following letter

From the Civil Engineer
Malabar

Reports proposed of the
Chetwye dam, and suggests
the employment of Lieutenant
Tennant as Executive Officer
for the work and for the South-
ern Range in Malabar.

21st Feb 57 No 927

Encl.
1. Encl. 1. 1. 1.

Resolved, to submit the fore-
going correspondence for the information and
the order of Government with the respectful
renewal of the Chief Engineer's previously
expressed opinion / respecting Major. Tennant's
professional conduct in Malabar / which
had been overruled in Ex. Min. Cons. No 383
of the 20th Feb 57 on a paper which Colonel
Tennant has not had an opportunity to
peruse.

2 Resolved also, to solicit the
early orders of Government upon the pro-
posed distribution and equalization
of the District Departments of P. W.
Encl.

retained in the Chief Engineer's Letter
No. 10005 of the 3^d Febry. last; as Colonel
Taber has not felt at liberty to give
effect to the projected arrangements
which he considers to be greatly re-
quired, without the previous approval
of Government.
